About **Kyani Independent Distributor** business cards

Printing turn around time 3-4 days + shipping time

Turnaround time begins after approval of card payment and we have completed processing your files to the ship date.

14pt Paper Stock

This stock is similar to that used on presentation folders.

It is a thick and stiff gloss stock that is coated on both sides with a semi-glossy finish.

Material is manufactured with sustainable resources and/or has significant recycled content, and printed using soy based inks.

Quantity

Minimum order of 1000.

Let us know how many units you would like shipped and we will recycle the excess for you. Simply choose the amount of cards you would like to receive when placing your order.

For example, if you would like 700 units, you will order 1000 units and let us know you only want 700 shipped. We will responsibly dispose of the extras.

We typically print more than the quantity ordered. Because printing is a manufacturing process, the total finished quantity may vary. We usually ship a few more than you order, but sometimes quantities can vary +/- 5%. Standard industry procedure is to consider this range shipment in full.

Note: *Due to the paper manufacturing process the paper stock may vary slightly from order to order.*
