@ Grant Waldie, P.Eng., PE

Parsons Incorporated (2010 – Present)

<i>Management</i>	- Project Manager, responsible for coordinating with 20+ engineers across Canada - Inspection Team Lead responsible for teams of 2 – 6 members - Load-Rating Project Manager, responsible for teams of 3 – 5 members
<i>Proposal Writing</i>	Lead Proposal writer, responsible for \$500k - \$1M worth of annual wins.
<i>Inspections</i>	Lead Inspector with 7+ years of experience on over 1,200 structures, including bridges, culverts, retaining walls, and seadams. Experience in 6 provinces and 3 states working with Provincial, Federal, Rail, and Port authorities.
<i>Construction</i>	On-site supervision and Contract Administration for rehabilitation works and also new bridge construction.
<i>Design</i>	Creation of rehabilitation design drawings, details, calculations, and specifications for bridge reconstruction projects, as well as conceptual design and project management of new bridges.

Previous Work Experience

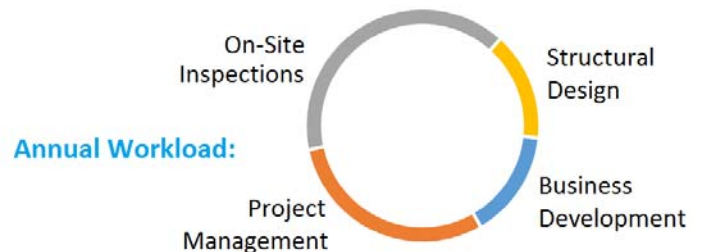

I've always felt that hands-on construction experience prepares engineers for the design world far better than any classroom time could. When hiring, I look for new graduates that share the same construction experiences that I had. I worked summer jobs in house renovations, new home construction, and also poured concrete and tied rebar for commercial construction.

Education

<i>Diploma in Civil Eng. Tech</i>	Camosun College, 2007
<i>Advanced Diploma in Civil Eng. Tech</i>	Camosun College, 2008
<i>Bachelor of Applied Sci. in Civil Eng.</i>	University of British Columbia, 2010

Licensing

<i>P.Eng.</i>	BC, Alberta, Saskatchewan, Manitoba, Ontario, Nova Scotia
<i>PE</i>	Washington State, Illinois, Texas

Goals for the future

- Develop new business opportunities
- Continue taking Project Management Courses, working towards a PMP, MBA, or equivalent
