

Vitalite SunBar

Delicious PowerBar

Moves out toxins!

Meal replacement!

The Ultimate Energy Bar!

Ever have a time when you'd like to have a ready-to-eat, completely balanced and delicious meal in a bar? Heretofore, the usual choices, upon checking the labels, have been high in fat, sodium, excito-toxins, and/or sugars (sugar and corn sweeteners) and isolated soy protein.

The ***Vitalite SunBar*** is only full of wholesome ingredients—whole soy protein, ***Regular NuPlus***, nuts, **FOS fiber** and freeze-dried fruits. The ***Vitalite SunBar*** contains 4 grams of plant fiber (16% DV) from soluble (digestible), life-giving ***Fructooligosaccharide (FOS)*** extract from Chicory Root, bamboo fiber and from psyllium seed powder. FOS helps in digestion, absorbs fats, stimulates growth of the good bacteria, such as Acidophilus, Bifidus, and Faecium, helps reduce Candida Albicans, minimizes bloating, reduces LDL or bad cholesterol (without negatively affecting the HDL or good cholesterol), and triglycerides, helps suppress the appetite, and helps mediate the assimilation of carbohydrates over a long period of time (helping blood sugar levels).

FOS makes an intestinal environment to support the “good guys” and eliminate the “bad guys”! It takes about 15 days consistently eating FOS to start making a significant difference in the colon.

If one should notice any gas, increase fluids, eat smaller amounts of the bar at a time, and know that the FOS is working to clean and restore a healthy intestinal tract; your body will normalize soon!

The food herbs in ***Vitalite SunBar*** are held together with thick, extra-concentrated ***Sunrise***, noted for energy and physical strength (see ***Sunrise***). Note: Dr. Tei Fu Chen says that ***Sunrise*** is for longevity and youthfulness. The bar also contains 7 gram of protein (vegetable source,) macadamia nuts (***Chocolate Vitalite SunBar***) and almonds— two bars make a complete meal replacement. The ***Vitalite SunBar*** makes a great addition to breakfast, lunch, or dinner! One bar is an excellent choice for a snack. **The *Vitalite SunBar* has only 110 calories, which makes it perfect for weight-management.** It fills you up, but not out! The ***Vitalite SunBar*** is ready-to-go, fills our nutritional needs, and fits busy lifestyles! For a complete fat-loss program, add ***VitaShake***, ***Calli***, ***Fortune Delight***, ***SunnyDew***, ***SunFit***, and ***Action Caps*** to your regimen!

The ***Fruit Vitalite SunBar's*** ingredients include: Whole Soy Protein Nuggets, ***Fructooligosaccharide (equivalent benefit of three *VitaDophilus*)***, Apple Juice, Bananas, Strawberries, Almonds, Honey, Lycii Fruit Concentrate, Chinese Asparagus Root Concentrate, Coix Fruit Concentrate, Soy Bean Oil, Psyllium Powder, Natural Vanilla, Wheat Germ Oil, Tocopherol, Chinese Yam, Fox Nut, Lotus Seed, Lotus Root, Waterlily Bulb and Imperate Root. **All the *Regular NuPlus* ingredients are in the *Vitalite SunBar* – 1 serving of *NuPlus* per *Vitalite SunBar*!** 2 cups of fluid (***Calli***, ***Fortune Delight***, or water) is recommended with each bar. The bar is available in

Fruit and Chocolate.
