MARCH 2018 NEWSLETTER

EVENTS CALENDAR

- Next Meeting: Sunday, April 8th at 2:30 PM regular time.
- CMP shooting match, May 2018

PRESIDENT'S REPORT

At the will of the club, meetings will alternate between Sundays and Saturdays to allow members to enjoy the park and fellowship. Membership is growing so keep on coming and support the club.

Ron Lochner conducted a Shotgun RSO training class regarding unique safety rules for the area and how to operate equipment safely. It is very important that only trained personnel enter the trap houses because the throwers even though turned off may be cocked with stored energy rendering them dangerous. Following the meeting, the attendees enjoyed shooting the shotgun course.

There is a new shotgun pattern target area at the end of the skeet/trap range.

We are asking shotgunners to pay \$5.00 per outing for clay usage or donate a box of clay targets.

BUSINESS MEETING-NOTES

- We have now about 50 trained RSOs but Steve Cox, our CRSO reported many weekends are left with no volunteers for Range duty. He asked RSOs to focus on weekend duty.
- We still want to pursue the 200 yard rifle range expansion with the Lee family, once we get necessary landlord approvals.
- Nick Osorio, CMP Youth Training Leader, will host a CMP shooting match on Saturday, March 24. Look for more details later.
- Roger Burrows offered an excellent fishing report of what fish are running, how to catch them and where to find them. Best advice: if the boat is moving, wear the life jackets.

Look forward to future WLA events. Tyler Wright has a display of all South Carolina snakes including vipers and volunteered to offer us a very educational encounter at future meetings.
