

## Cause and Effects of Being Organized

Name: \_\_\_\_\_ Date: \_\_\_\_\_ Period: \_\_\_\_\_

In your groups, read the causes then generate at least 1 effect that might occur for each cause. If applicable, come up with a solution for the poor organization habit.

Example:      Cause:            You left your math book at school.  
                   Effects:            You will not be able to complete your homework.  
                                           You can't study for a test.

CAUSE	EFFECTS	SOLUTION (if applicable)
You did not place a project assignment in your notebook.		
You did not understand how to complete a homework assignment.		
You identified afternoon tutoring sessions and wrote down the time and room location.		
You read only half of the novel assigned to you.		
You do not have separate folders or notebooks for each class, but keep all of your papers inside of your backpack.		

<p>You always have enough supplies for class.</p>		
<p>You are always late for class, appointments, practice, and even meeting friends.</p>		
<p>You usually start a big project the night before it is due.</p>		
<p>You start your homework when you get home from school.</p>		
<p>You generally get up late for school every day.</p>		
<p>If you don't understand your assignment or how to complete your homework, you ask the teacher before leaving school.</p>		
<p>Your planner is so small that you always lose it.</p>
