

The Tale of Grace in Motion

I was born in New York on March 24, 2018. My name was chosen by my human dad and voted on by my fans but you can call me Gracie.

My dad is Medal Count by Dynaformer out of an Unbridled mare. He's a graded stakes winner, finishing third in the Belmont Stakes and ran in the Breeders' Cup!

Fine Feline is my mom. She is by graded stakes winner, Tale of the Cat who is by Storm Cat. My mom was kind of strict but very loving. She was always encouraging and said I should follow my dreams, which is really to be a model.

I grew up with a few fillies and became good friends with one. We went to school together in Ocala and almost got suspended for getting out of our pasture because we jumped the fence! You never know what you can do until you try!

I finished school and got to travel with my friend to Belmont Park to prepare for my racing career. Every model should have a back-up plan and I'm doing really well in race training. I hear if I win, lots of photos will be taken of me and a girl can never have enough in her modeling portfolio!

My human parents say they are very proud of me! They said they only expect me to always try my best and to choose an aftercare that I will run for. I thought about it and decided I wanted to run for New Beginnings Thoroughbred. This is where jumping and catwalk skills can be put to good use while all the cameras are on you. It is a great place for retired racehorses to move on to second careers and find new homes while receiving excellent TLC. I am proud to be running for and supporting New Beginnings!

I just ran my first "test" race at Belmont and now I'm off to Saratoga. Hoping to see you at the races - don't forget your camera!

Well, that's all that's happened in my life so far. I hope you might continue to follow my journey because I'm sure there will be plenty to add to my story.

To be continued
