Terms of Acceptance

The goal of our office is to enable patients to gain control of their health. To attain this we believe communication is the key. There are often topics that are hard to understand and we hope this document will clarify those issues for you.

Please read the below and if you have any questions please feel free to ask one of our staff members.

Informed Consent:

To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

The nature of the chiropractic adjustment:

The primary treatment I use as a Doctor of Chiropractic is spinal manipulative therapy. I will use that procedure to treat you. I may use my hands or a mechanical instrument upon your body in such a way as to move your joints. This may cause an audible "pop" or "click," much as you have experienced when you "crack" your knuckles. You may feel a sense of movement.

Analysis / Examination / Treatment

As i	part of the analysis	s. examination.	and treatment.	vou are con	senting to t	he following	procedures:

- spinal manipulative therapy
 palpation
 vital signs
 range of motion testing
- orthopedic testing basic neurological testing muscle strength testing
- postural analysis EMS ultrasound
- hot/cold therapy radiographic studies
- Other (please explain):

The material risks inherent in chiropractic adjustment.

As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke, however, this is a rare occurrence. Some patients will feel some stiffness and soreness following the first few days of treatments. I will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to my attention, it is your responsibility to inform me.

The probability of those risks occurring.

Fractures are rare occurrences and generally result from some underlying weakness of the bone which I check for during the taking of your history and during examination. Stroke has been the subject of tremendous disagreement. The incidences of stroke are exceedingly rare and are estimated to occur between one in one million and one in five million cervical adjustments. The other complications are also generally described as rare.

The availability and nature of other treatment options.

Other treatment options for your condition may include → 1: Self-administered, over-the-counter analgesics and rest 2: Medical care and prescription drugs such as anti-inflammatory, muscle relaxants and pain killers 3: Hospitalization 4: Surgery If you choose to use one of the above noted "other treatment" options, you should be aware that there are risks and benefits of such options and you may wish to discuss these with your primary medical physician.

The risks and dangers attendant to remaining untreated.

Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

CONSENT TO EVALUATE AND TREAT A MINOR: I,	being the parent or legal guardian of
, have read and fully understand the above	e terms of acceptance and hereby grant permission for
my child to receive chiropractic care.	

Women Only:

To the best of my knowledge I **am / am NOT** pregnant and (**give my permission / don't give permission**) to x-ray me for diagnostic interpretation. (*Circle one above*)

Missed Appointments:

There is a possible fee charged for all appointments that are not canceled prior to scheduled visit.

Any appointment that is not canceled 24 hours prior to scheduled appointment will be charged \$35 - \$70.

The fee will be based on the type of appointment that was scheduled.

Communications:

In the event to	nat we would need to communicate your healthcare information, to whom may we do so?

PATIENT FINANCIAL POLICY

Our primary responsibility is to help you experience good health and we wish to spend our time and energy toward that end. In the interest of good health care practice, it is best to establish a financial policy to avoid misunderstanding.

- 1. All accounts are due and payable at the time of your visit unless you make satisfactory arrangements with the office manager.
- 2. It is our policy that if we are filing a claim with your insurance company, we will expect you to pay any unpaid deductible as well as the copayment/coinsurance required by your insurance company at the time of your visit.
- 3. Even though you may have an insurance claim pending, you will receive a statement each month for the outstanding balance of your account. We cannot accept responsibility for collecting an insurance claim or negotiating a disputed claim.
- 4. Remember, insurance reimbursement is a contract between you and your insurance carrier. If after 45 days your insurance has not been paid, we will turn to you for payment. You are responsible for your bills regardless of what your insurance pays.
- 5. If for any reason you have an unpaid balance at 60 days past due, we will automatically charge you \$5.00 per month on your unpaid balance.
- 6. To better serve all of our patients, we request that you inform us at least twenty-four hours in advance if you need to cancel your appointment. If for any reason you fail to do this, we will bill you (not your insurance company) for an office visit.
- 7. There will be a \$25.00 charge on all returned checks, per submission.
- 8. We do not wish to cause you any undue hard ship, however, we must be able to continue our service to the community.

I have read this financial policy and understand that, regardless of any insurance coverage I may have, I am responsible for payment of my account within the usual limits of this credit policy. I agree that in the event costs and/or fees are incurred in connection with the collection of my account, I will pay all such costs and fees, including collection costs, Attorney's fees and all court costs.
