

Acrylic Finishes

OmegaFlex

100% Acrylic Interior/Exterior Finishes

Omegaflex Finishes are 100% acrylic-based finishes using the latest Dirt Pick-up Resistance (DPR) technology. They provide a flexible, durable, integrally colored finish, which will enhance the appearance of any plastered structure. OmegaFlex Finishes may be sprayed or troweled to achieve a variety of texture options and are available in the following finishes: Coarse (~1.5mm): Heavy sand-like finish. Medium (~0.8mm): Medium sand-like finish. Fine (~0.3mm): Imperfect smooth type finish. Ideal for Valentino AkroTique.

AkroFlex Malibu

100% Acrylic Interior/Exterior Finishes

Akroflex Malibu Finishes are 100% acrylic based finishes using the latest Dirt Pick-up Resistance (DPR) technology, which can produce a variety of textures depending on the aggregate size and application method. Malibu Finishes will enhance the appearance of any plastered structure by providing a flexible, durable, integrally colored finish. Malibu Finishes are available in the following aggregate sizes:

Malibu 12 (~1.5mm): Coarse sand-like finish with slight worm driven appearance.

Malibu 16 (~1.2mm): Medium sand-like finish with slight worm driven appearance.

Malibu 20 (~0.8mm): Fine sand-like finish with reflective quartz aggregate.

Malibu Fine (~0.8mm): Imperfect smooth type finish with irregularities.

AkroFlex Semi Smooth

100% Acrylic Interior/Exterior Finishes

Akroflex Semi-Smooth Finish is a 100% acrylic-based finish using the latest Dirt Pick-up Resistance (DPR) technology, which can produce a variety of textures depending on the application method. Semi-Smooth Finish will enhance the appearance of any plastered structure by providing a flexible, durable, integrally colored finish. Semi-Smooth Finish utilizes approximately 0.3mm aggregates and can be troweled to achieve an imperfect smooth Mission-style finish or Old World appearance.

AkroFlex Delta

100% Acrylic Interior/Exterior Finishes

AkroFlex Delta Finish is a 100% acrylic-based finish using the latest Dirt Pick-up Resistance (DPR) technology, which can produce a variety of textures depending on the application method. Delta Finish will enhance the appearance of any plastered structure by providing a flexible, durable, integrally colored finish. Delta Finish utilizes approximately 1.5mm aggregates and can be utilized to create a medium sand-like finish or lace texture.

Akroflex Desert Series Finishes are 100% acrylic based finishes using the latest Dirt Pick-up Resistance (DPR) technology, which can produce a variety of textures depending on the aggregate size and application method. Desert Series Finishes will enhance the appearance of any plastered structure by providing a flexible, durable, integrally colored finish. Desert Series Finishes utilize silica aggregates and are available in the following finishes:

Sahara Sand (~0.8mm): Uniform fine sand-like finish.

Pebble Beach (~1.5mm): Uniform medium sand-like finish

AkroFlex CircleTex

100% Acrylic Interior/Exterior Finishes

Akroflex CircleTex Finishes are 100% acrylic based finishes using the latest Dirt Pick-up Resistance (DPR) technology, and can be utilized to produce a true worm driven appearance. CircleTex Finishes will enhance the appearance of any plastered structure by providing a flexible, durable, integrally colored finish. CircleTex is available as a medium (1.5mm) or coarse (3mm) aggregate finish.

Color Bottle System

Liquid Pigments for Adding Color to Select Omega Products

The Color Bottle System is a factory blended, premixed liquid coloring system providing an accurate method for adding pigments to the AkroFlex Finishes, OmegaFlex Finishes, and other approved Omega products that require liquid integral color.

AkroSil

100% Acrylic Interior/Exterior Finishes

AkroSil Finishes are 100% acrylic-based, silicone enhanced finishes using the latest Dirt Pick-up Resistance (DPR) technology. AkroSil Finishes provide greater water repellency and superior resistance to dirt and pollution than standard acrylic finishes. By creating a flexible, durable, integrally colored finish, AkroSil will enhance the appearance of any plastered structure. AkroSil versions of many AkroFlex Finishes are available, which can produce a variety of textures depending on the finish and application method.

Akrolastic

100% Acrylic, Elastomeric Interior/Exterior Finishes

Akrolastic Finishes are 100% acrylic-based, elastomeric, textured finishes. They provide enhanced elasticity and a weather resistant finish, which when properly applied will enhance the appearance of any plastered structure. Akrolastic Finishes help bridge the hairline structural and shrinkage cracks inherent in traditional portland cement-based plaster construction. A variety of texture options are possible when spray or trowel applied, such as Akrolastic Malibu, Akrolastic Delta, Akrolastic CircleTex, and Akrolastic Semi-Smooth.

AkroTique

A 100% Acrylic Antique Stain and Sealer

AkroTique is a pigmented acrylic sealer designed to create a rustic, mottled finish similar to the timeless beauty of century old plaster. AkroTique offers an "Old World" look that does not take a lifetime to create. AkroTique also can be used without color as a sealer.
