

2016 SKYWALKER ROSE, MARIN COUNTY

Unlike most other wines, Skywalker Rosé is created to be approachable and enjoyed equally at a brunch or an elegant cocktail party. By blending the best of the Provençal style with the California cool climate Pinot Noir, we are able to capture the complexity and beauty of Marin County in this opulent wine.

ATMOSPHERE

The Skywalker Pinot Noir vineyards are planted at the top of the ridge on Skywalker Ranch. Winds from the coast help maintain a cool growing area that challenges normal winegrowing practices. These same challenges help develop delicate and understated flavors.

EARTH

The rocky soil in which the vines grow, imparts unique minerality and sense of place. Not ideal for most wines, we use this to our advantage to make a wine that balances acidity.

ELEVATION

Situated above the marine layer, this area does not ripen with the same intensity as other blocks in the vineyard, giving the wine its bright flavor.
