

Laser Ammo is happy to announce the first affordable judgmental and marksmanship shooting simulator - the Smokeless Range® **Simulator Combo** for practicing with your own firearm or Airsoft at your convenience at home.

This all-in-one combination package includes every simulator offering at a discounted price! The package includes:

- The Smokeless Range (high speed camera included)
- Open Range Course Editor
- Game Range Alpha - 5 marksmanship and training drills enjoyable for the entire family!
- M-Range - course of fire, qualification training software that allows you to build your own course of fire and train up to 4 shooters at the same time

The Simulator Combo includes a **high speed camera** for IR and Red Lasers.

\*If you are using the Smokeless Range Simulator Combo with Airsoft Pistols we recommend using an IR SureStrike Vibration Cartridge.
