DISCONTINUANCE AND RESTORATION OF SERVICE

C. Restoration of Service

1. Reconnection Charge

Where service has been disconnected, the utility may charge \$25.00 for reconnection of service during regular working hours or \$40 for reconnection of service at other than regular working hours when the customer has requested that the reconnection be made at other than regular working hours. This same charge should be levied on customers who attempt to avoid disconnection by paying an overdue bill to the utility's employee who is on the premises to disconnect service. Customers may also be responsible for time and material costs associated with the disconnection and restoration of water service (i.e. snow removal, debris removal from service box). The Reconnection Charge for those customers or former customers whose service has been discontinued shall be the total of the accumulated monthly service and surcharges, based on the customer's meter size as stated in Schedule 1, Annual Metered Service applicable to that meter size and the total of the accumulated monthly service and surcharges in Schedule 2A, Annual Flat Rate Service. **The maximum accumulated service and surcharges shall be limited to 12 months.**
