OSINT: From the Browser
To the Courtroom

Presented by:

Curtis Davis, Police Officer
LAPD Robbery-Homicide Division

Date: Tuesday, January 29, 2019
Location: Ontario Police Department
Community Room
2500 S Archibald Ave, Ontario, CA 91761

Training: 0800 – 1700 hours

This 8-hour intermediate to advanced presentation is designed for analysts/investigators that already have some experience working with internet investigations, social media, and related technologies. The instructor will start the day off with a review of OSINT fundamentals and will then quickly dive into real case studies based on what LAPD Robbery-Homicide is doing today. The training will combine lecture and hands-on techniques, so make sure you bring your tablet if you want to follow along! *** *laptops/tablets will not be provided to students* ***

Topics that will be covered include:
• Holistic approach to OSINT alongside LES databases (such as LInX, Accurint, TLO, CLEAR) and HUMINT
• Strategies for OSINT at scale, real-time or as assigned to an ICS Intel Section
• Deploying contact exploitation devices to rapidly exploit phone numbers and email addresses
• How to attack criminal networks by analyzing friends/followers/connections
• Analyzing geolocation, image verification and vetting online content
• Search warrants, analyzing business records, hashing, documenting searches, court preparation
• Intelligence Reporting
• Establishing OPSEC for safer investigations
• Digital manhunts
• Establishing a social media policy for investigations
• Hands-on searching of social media platforms

(This presentation is for Full Time Law Enforcement Personnel only)
