To whom it may concern:

It is my pleasure to offer my highest recommendation of Mr. Jim Gundelach who has served as a consultant in my dental office.

Jim has shown himself to possess qualities of dependability, perceptiveness, discretion and excellent analysis of personnel and financial situations. His high level of dental and consulting experience serve to make him an excellent advisor in all areas of practice management. In my observation, Jim has particular interest and ability in the area of numerical practice analysis. Finally, it is important that a consultant establish himself as a non-offensive, yet believable and authoritative presence in the dental office. Jim does this extremely well, thereby making achievement of office goals very easy and pleasant.

I am sure that Mr. Gundelach will be successful in any endeavor he selects. I count myself as fortunate to have availed myself of his services.

Sincerely yours,

Coral Cobley, DDS
