## Is Your Company Prepared?

--- ISO9001:2015 --- AS9100-2018 --- SQF2000 v8 --- ISO22000:2018 ---

I can provide low-cost on-site consultancy for developing a tailor-made Quality Management System (QMS) with the aim of helping your company improve and increase its competitiveness and achieve certification from an accredited certifying body. I help you understand and apply the quality management system requirements while ensuring that your program proceeds smoothly. A QMS based on one of the above standards is recognized worldwide as an excellent tool for improving performance and, increasing customer satisfaction. I utilize a System Implementation Procedure which guides you through the implementation and development of a QMS as follows:

**GAP ASSESSMENT** - Review of existing practices and documents against the requirements to determine what the project plan, time and costs are going to be to achieve the Quality management system certification.

**SYSTEM DEVELOPMENT** - Depending on the Gap Analysis, several modules may be necessary to prepare to meet the standard or standards

**IMPLEMENTATION**- I will work alongside management implementing and monitoring the management system.

**INTERNAL AUDITS / AUDITOR TRAINING** - I can either train your audit team on the new requirements or I can conduct a full system internal audit of your operation.

**CERTIFICATION** - Assist your organization in preparing for the initial certification audit and be present if needed

**AFTER CERTIFICATION** - For most organizations this is the beginning and not the end of the journey toward building excellence in management systems

### **TRAINING**

On-site training in many of the areas required for a robust Quality Management System

### **OTHER REQUIRED PROGRAMS**

I can also assist in establishing and improving programs that are required by all quality management systems: Calibration, Training Records, Document Control, Root Cause Analysis and Statistical Process Control.

For Questions about any of the above services, please call Mark Bradley at 812-305-3867.

## **CHAIR'S CORNER**

by Tom Watson

We are getting ready to start the monthly section dinner meetings. Mike Soellner and Rhonda Boehm have some good topics lined up for our section. We will kick-off our September meeting with the topic using Big Data to Drive Quality Improvements. Big data is all around us these days. Companies have been using the Internet of Things to gather mounds of data. Gathering data is a good thing but trying to analyze it can be tricky. After all, what good is gathering all this data if you do not know how to analyze it. I will be presenting the topic around big data at our September meeting. Please try to attend as you will be able to take what you learn and apply it back in your organizations.

The October meeting will be a tour of Jasper Engines. A plant tour is always very interesting and I always take what I see and try to figure out if I can apply it to my organization. At this meeting we will also be voting on the leadership team positions for calendar year 2020. We have a slate of volunteers who have submitted their names for these positions. Members attending the meeting will have a chance to submit their vote.

I look forward to a great year and a smooth transition for the leadership team into 2020.

## LUNCHTIME WEBINARS:

Greg Painter is planning to startup the Lunchtime Webinars this fall. The following is a list of potential topics. He will appreciate it if you would relay or any request for a topic or any support for a topic listed below. This is a chance to get some exposure to topics on the fringe of your knowledge base.

Auditing techniques, Brainstorming, The change process, Cost of Quality,  
 Error proofing - Poka-yoke, Quality Gurus, Quality Management Principles, Leadership,  
 Effective communication, Quality Systems- ISO, TQM, Six Sigma,  
 Quality Improvement- Benchmarking, PDCA, Basic Quality Tools, 8D tips and tricks,  
 Intro to Doe using Minitab, What is a reverse PFMEA, A3 8 step problem solving overview
