

Fairfield Regional Fire School

Cancer in the Fire Service

Firefighter Cancer Support Network Taking Action Against Cancer in the Fire Service

It is our goal to educate firefighters and EMS personnel about their risks of developing cancer; encourage actions and behaviors to reduce or prevent exposure to occupational cancer hazards; encourage healthy lifestyle choices to further reduce cancer risk; and provide information about resources available to firefighters, EMS personnel and their families following a cancer diagnosis.

Firefighter Cancer Support Network (FCSN) has provided assistance and one to one mentoring to thousands of cancer stricken firefighters and their families. FCSN also delivers extensive firefighter cancer awareness and prevention training nationwide.
