

TRANSCRIPT PLANNING FORM FOR YOUR RECORDS
Keep on file and submit to Dawn at your 11th grade evaluation

Student Name:

Year of Graduation:

The homeschool law requires the following subjects to be taught between 7th and 12th grade. On the blanks provided, write the grade as they are completed.

Start recording in 7th grade:

_____ Geography

_____ Civics

_____ World History

_____ History of U.S.

_____ P.A. History

_____ Music

_____ Health

_____ General Math

_____ Algebra

_____ Geometry

_____ Art

_____ Physical Education

_____ Safety Education

*The courses to be taught during the secondary years include algebra and geometry. If algebra and/or geometry are covered before 9th grade, the student must still complete three years of mathematics between grades 9 and 12.

*The required subjects may be taught in either seventh or eighth grade. High school credit would not be given, but neither would the courses have to be repeated in grades nine through twelve. The evaluator's signature on the transcript verifies that the necessary coursework was completed at the secondary level.

Between grades 9 and 12, the homeschool law requires the following number of units (years) of each subject listed below to be taught. Circle the subjects you completed starting in 9th grade and each year thereafter.

English	1	2	3	4
Math	1	2	3	
Science	1	2	3	
Social Studies	1	2	3	
Art and Humanities	1	2		

If you attended public (which includes cyber) or private school, please bring school transcripts along to the evaluation.

The homeschool law requires the above information. You can do more but not less. Plan well if you are going onto higher education. Ask prospective colleges what they require. Quality courses, solid grades, SAT or ACT scores, community service, and references all play a part.

Thank you for allowing me to have a part in your child's education.
