Mayor's Report

Dennis Morley
Mayor/Safety Director

It is with a heavy heart that we announce the passing of Councilman Kim Evers on June 15th. He was always there for our city as a Councilman, an EPAL director, and a member of the Blvd of 500 Flags just to mention a few. Let's just say whatever this city needed, Kim was there. Whatever issues our residents had, Kim was there to solve, and if he didn't have the answer when he was called he found the answer and the solution. I was also proud to call Kim my friend. We did not always see eye to eye, but that's what makes a good friendship and better yet, made for a better direction for our city. Every time Kim was in city hall he would poke his head in my office and he would say "Hey Denny you need anything"? That is the Kim I will always remember. Please keep Kim's family in your thoughts and prayers. RIP my friend.

The City will not be sponsoring fireworks this year

It has been a privilege to serve the residents of Eastlake as a councilman for the past 5 plus years. I will be resigning my position at the end of July to take on my new role as Lake County Treasurer. Hello Ward 4
Reminder, if you have been putting off renewing your license you must take action by the time this is published. After BMV's closed all around the state last March, Gov. AT&T is still in the Surfside area installing fiber, this will be ongoing during the summer. If your property is effected the subcontractor will place hangtags on your home and you will see the State marking the underground lines. After a previous issue the marking should be done

Jason Kasunick
Ward 3 Councilman

I am deeply saddened to learn of the passing of my fellow Councilman, Kim Evers. I am extremely grateful to have had him show me the ropes when I joined City Council. I truly thought of him as a mentor and friend. We as a community were also very fortunate to have had Kim serve in our City Council, as a veteran in our military, and working with local youths through the Eastlake Police Activities League among many other things. Kim was always a staunch supporter of our community and our first responders.

Thank you Kim for your many years of service. May we all learn from your example. Your family and many friends have my sincere condolences.

Donors Support Lakeland Students to Keep Workforce Strong

Donor support is helping Lakeland Community College students stay on track to earn their credentials and fill a shortage of qualified workers in our community.

Economists project that most jobs in Ohio will require a

postsecondary credential by 2025. Lakeland is a critical provider of job training and education to prepare graduates with the skills local employers need for the jobs of the future. Ninety-seven percent of Lakeland graduates live or work in our community, providing

local employers with a pipeline of skilled workers who are ready for immediate employment.

To help more students complete their studies, the college has focused on creating a campus experience that increases student success. This includes providing

financial assistance, student support services, student engagement programs, and emergency needs funding to keep students on the path to earning their degrees or certificates.

In 2015, the college's philanthropic arm, The Lakeland Foundation, launched a \$10 million campaign for scholarships and programs to support Lakeland student success and future economic growth.

"Our students face unique challenges which often prevent them from pursuing a college education or finishing once they have begun," said Greg Sanders, Lakeland vice president for institutional advancement and executive director of The Lakeland Foundation. "Thanks to donors to the Futures Rising campaign, we are creating a campus experience that improves students' success in college, careers and life."

Over the past five years, 1,342 donors contributed \$10.7 million to the Lakeland Foundation's Futures Rising Campaign, surpassing its goal. About \$4 million was raised for innovative programs to support student success and enhance the campus experience. Programs include diversity initiatives, arts and cultural experiences, leadership opportunities, and other co-curricular activities.

Studies show that the more actively engaged students are - with college faculty and staff, with other students, with the subject matter they are studying - the more likely they are to persist in their college studies and to achieve at higher levels.

Learning experiences, like the Lakeland Honors Program, provide opportunities for students to engage with other classmates and gain valuable skills. Designed to foster leadership development, the honors program offers opportunities for

service, travel and social activities while providing an excellent and challenging academic experience.

"I've learned more than just from the hard classes I take in the honors program," said Bradley Gartner, a traditional aged student pursuing his Associate of Science degree. "I've gained diverse perspectives and leadership and teamwork skills that I wouldn't have attained otherwise."

The campaign also raised more than \$2.5 million to provide scholarships for students who need help paying tuition to finish college and gain access to better jobs. While Lakeland's tuition is one of the lowest in the state, more than half of students receive some form of financial assistance.

Scholarships are awarded to students like Kristina Shapiro, a mother of three who worked part-time while studying at Lakeland to become a nurse. "The scholarship helped me to afford the last year of nursing school," said Shapiro, who earned her Associate of Applied Science degree this spring.

During the pandemic, when many students lost their jobs, The Lakeland Foundation focused its fundraising efforts on emergency funds and the Lakeland Cares Cupboard food pantry. Emergency funds provide support for students' most basic needs, such as food, transportation and child care. The Foundation's Immediate Needs Grant is available to students who encounter an unexpected financial hardship in paying for expenses that is preventing them from completing the semester.

Lakeland scholarship recipients went on camera recently to personally thank donors for the generous gifts made to the Futures Rising campaign. View the thank you video on Lakeland's YouTube channel at <https://youtu.be/KI9MKD4TUo4>.

Lakeland scholarship recipients thank you for your support.

Bankruptcy 101:

The two types of bankruptcy that most people hear about are chapter 7 and chapter 13. The word chapter refers to the chapter (like in a book) in the bankruptcy code. Chapter 7 is a liquidating bankruptcy and chapter 13 is a non-liquidating bankruptcy. Liquidating means they (the government) can take your stuff. Non-liquidating means they can't. However, there are exceptions to this. I will try to lay this out in a simplistic fashion:

In a chapter 7 you will be able to discharge all of your debts without paying anything back. However, if you have any equity in anything (your home, your car, your bank account, your boat-anything) you must surrender it to the bankruptcy trustee (the person who looks out for the creditors) so that it can be sold (liquidated) to pay back the creditors to the largest extent possible. Equity is what determines which chapter of bankruptcy you can file under. Fair Market Value minus Amount Owed equals Your Equity in anything.

A chapter 13 is a non-liquidating bankruptcy. This means you get to keep everything, but you have to pay back a percentage of your equity. It is also used for people who are in foreclosure or

behind on their mortgage and in fear of foreclosure. A chapter 13 requires a payback plan from between three to five years. The payment is monthly. The amount is determined, again, by the amount of equity you have accumulated in your life. This is referred to as your bankruptcy estate. Obviously, everyone wants to do a chapter 7 because it is no pay back. However, since 2005 it has become much harder to file chapter 7. In 2005, legislation was passed which tightened up the income restrictions on people with regard to the Chapter 7 bankruptcy. The intended result was that more people must file under Chapter 13 of the Bankruptcy code and pay back, at least, what the government thinks they can afford.

It is the bankruptcy attorney's job to advise you which is the best chapter to file under. It is also the attorney's job to make sure you keep your home, your car, and everything else you have accumulated throughout your life.

A good bankruptcy attorney will do those all of those things. He or She will also stop the creditors from harassing you, protect you from lawsuits, garnishments, put you back on your feet and give you a fresh start in life.

Annual Parade of Ponds - July 17th

Thinking about a pond? Want to expand a pond? Or just want to learn about a pond? Well don't miss this day in July.

The Parade of Ponds is a self guided tour for people to see ornamental ponds & water features. American Home & Energy Products hosts this yearly event and it all begins at their retail store in Painesville, across from the Lake County Fairgrounds.

Each year about 15 homeowners in Lake County open up their beautifully landscaped yards to share their water gardening projects. The tour is set up to give ideas for current and future projects, or just for the appreciation of water gardening. You will have a chance to see many relaxing atmospheres coordinated within homeowners' landscapes, such as custom built waterfalls & streams, schools of colorful fish, hardy native water plants, exotic tropical plants, pondless features and all the surrounding landscapes. You will be able to talk with most of the homeowners about their project and find out why water

gardening has become America's #1 growing landscape trend.

All you have to do is stop in anytime on Saturday, July 17th and pick up a map and description handout of the various features and away you go. The event is free and runs from 9:00 A.M. until 4:00 P.M. Saturday only. We do ask that you call the week prior so we are sure to have enough maps on hand.

Local Eastlake Handyman Company Saves the Day

Evan Pirc, a local savvy real estate investor and resident, recently sold a home in our community. Sidewalk block repair was required to complete the transaction.

"The fellow we hired to do the work had all kinds of wonderful ideas and even offered a price that should have saved me money, but his follow-through wasn't very good and ended up costing me more money in the long run." Pirc said. "He bailed on us without finishing everything he was supposed to do."

This left Pirc facing multiple closing delays and potentially losing the deal on the sale of his home. It also nearly left the buying family stranded with nowhere to go.

That's why Monthly Upkeep recently was called in for Pirc's job. Their crew bills themselves as "Monthly Upkeep, Eastlake's Get it Done Handyman," and they quickly completed the job the other contractor failed to finish.

Monthly Upkeep, on one days notice, was able to handle the job Pirc had been falsely promised by another contractor for weeks would be completed. Pirc said "Like many customers I tried to save a few bucks by going with another contractor and it ended up costing me big time in the long run."

Pirc and Monthly Upkeep successfully completed the required job and the new family was able to close. "Pirc said,

Monthly Upkeep is now my go to contractor."

A few things to watch out for are contractors who ask for upfront 100% payment should be a red flag. Busy established handyman companies like Monthly Upkeep usually require a small deposit to reserve your spot on their busy calendar. This is okay and gives customers peace of mind knowing they are scheduled.

Monthly Upkeep, the "get it done" handyman, can help with all your home repair/remodel needs.

Attitudes are Changing Towards Insurance

The events of the past year have created a great deal of uncertainty in many of our lives. Those who may not have given life or health insurance a second thought, are now reconsidering these protections. They have seen how life can change in an instant; that no one is exempt from becoming sick, disabled, or losing their life and they are taking steps to protect themselves and those they care about.

The primary purpose of life and health insurance is to provide a financial safety net. But what kind of insurance will be best for you?

Health Insurance

Even before the effects of the covid emergency, 3 million Americans were without health care coverage. The situation was worsened when according to estimates by the Kaiser Family

Foundation, approximately 2 to 3 million workers lost employee-based health plans between March and September 2020.

The good news is the recently passed Coronavirus Relief Plan contains provisions to make Affordable Care Act (ACA) coverage much more affordable. Now, 9 out of 10 people enrolled in Marketplace coverage qualify for financial help, and 75% of people found plans for \$50 or less/month after financial assistance. This, combined with the Special Enrollment Period that re-opened the ACA marketplace through August 15 gives those without coverage an opportunity to enroll in a budget-friendly plan now.

Life Insurance

Life insurance provides a financial safety net that your spouse, children, or others can

depend on if you die. It is not a one-size-fits-all purchase. You will need to decide on the type, length, and amount of coverage you need. While there are many types of Life Insurance, two basic types are Term and Whole Life Insurance.

Term Life Insurance is an affordable way to provide basic protection. Term Life Insurance lasts a certain number of years, then ends. If the insured dies during the period specified in the policy and the policy is active, or in force, a death benefit will be paid. Unlike most types of permanent insurance, term insurance has no cash value.

Whole Life Insurance provides financial protection but also includes a savings/investment component in addition to the death benefit. Unlike Term Insurance a Whole Life policy remains in effect for the life of the insured if the

premiums are paid. Over time Whole Life Insurance builds cash value which can be accessed in the event of emergencies.

No matter what type of Life or Health Insurance you are considering, please call me. We will go over the various options and find the best plan for your needs. I can be reached at 440-255-5700 or Lmutsko@mutskoinsurance.com.

Mentor Window Earns Yet Another Angie's List Super Service Award - 9 Years Straight!

Mentor Window has earned the home improvement industry's coveted Angie's List Super Service Award for the 9th year in a row. This award reflects exemplary years of service provided to customers throughout Northeast Ohio, along with honest, fair prices.

Steve Douglas the owner of Mentor Window was asked about how they continue having such success in the home improvement industry. "We have crews that have been with us for decades, and we are very particular about the installers we hire. We won't just hire anyone to catch up if we are backed up a bit, quality is at the top of our list when it comes to workmanship. When it comes to pricing, we are straight forward with people, they don't want to hear any buy 1 get 1 free nonsense. They want a fair, honest price up front without all the gimmicks you see out there in advertising. We treat each and every one of our customers like family."

"Only about 5% of the Home Improvement companies in Northeast Ohio have performed consistently well enough to earn our Super Service Award," said Angie (founder of Angie's List.) "It's a really high standard."

Angie's List Super Service Award 2020 winners have met strict eligibility requirements, which include an "A" rating in overall grade, recent grade, and review grade period; the company must be in good standing with Angie's List, pass a background check and abide by Angie's List operational guidelines.

Service company ratings are updated daily on Angie's List. Companies are graded on an A to F scale in areas ranging from price to professionalism to punctuality.
