

1-KNOT
empowering solutions

ABOUT US

1-KNOT acts as Catalyst to your Solution needs. With professional experiences over 25 years we speed up solutions for Energy industry specialized in Water and Oil & Gas sectors. Passionate engineers formed 1-KNOT in view of providing right product for solutions that meet requirements, fulfilling quality and safety standards. This is achieved with our engineering ideology of RGB™. The solutions provided are fuelled with process knowledge. This drives us to serve our customers with exceptional solutions.

VISION

To empower solutions

Mission

Provide solutions that meet customer requirements as well international/local standards fulfilling quality and safety requirements.

Why choose 1-KNOT

- We love what we do
- We truly care about your needs
- Leave it to us – we support standing your side
- Our promise to meet your requirements

Values

- Reliable – Our solutions and products are designed as trustworthy catering for customer requirements meeting relevant standards and specifications
- Share – To make the market place better future generations is rooted by sharing knowledge gained over by education and experience.
- Engage – Culture unique to 1-KNOT that embraces & engages employees to be part of our long run.

Products & Solutions

Our products & solutions serve areas of drinking water, metering, blending. These are enhanced by our process automation that comes with our years of experience and knowledge. All starts form feed engineering, detail engineering, procurement, fabrication, construction, commissioning and continues to install base support.

NEER - Drinking Water Systems

Water an essential component in every one life is now easier to get with uncompromised quality with NEER™ to get with drinking water. Our product is skid based reverse osmosis systems which is capable of removing salts as well as other impurities such as mineral salts, bacteria, sugars, proteins, dyes and constituents that have a molecular weight greater than 150-250 Daltons. This is achieved by advanced membranes and UV Filtration. Systems are scalable from 1m³/day to 50m³/day. For other capacities contact us.

Metering Solutions

Custody transfer flow metering matters when it concerns buying and selling oil & gas. It is beyond possessing international and local standards but the in-depth immense understanding and experience is what matters when it comes to a successful metering and blending solutions.

With our extensive experience is handling and successful execution of metering projects we provide solutions standing by your side rather on manufacturer side hence creating avenues to increase your profitability.

Blending Solutions

In-line blending is a method to increase the efficiency of products, especially crude. The dynamic control to ensure the end product meets the necessary parameters such as density, viscosity.

Our in-line blending solutions can cater up to 5 streams with efficient recipe control and trim control with no off-spec product. The solution becomes complete with our 1-KNOTROL™ blending controller.

Turnkey I&C Works

Our key strengths enhance our success in handling turnkey I&C works:

- Engineering to RGB™ Ideology
- Process Knowledge in Oil & Gas and Water industry
- Project management & risk management
- Collaboration with product manufacturers
- Construction arm
- QHSE management
- Install base support

1-KNOTROL™

In-line blending controller that is suitable for hazardous area outdoor installation with control features up to 5 streams and customisation option for more.

The quick recipe control and smarter trim control with our unique piping arrangement gives no off-spec end product. The controller comes with touch screen for easier user interface and remote diagnostic port. Communicate to plant DCS through Modbus TCP/IP, Serial or OPC.

Options available :

- Mounting features for wall and pole
- Self-powered using solar cells for remote installations
- Expandable number of streams

QHSE POLICY

QUALITY POLICY

Provide Reliable Solutions which fits the purpose or exceed expectations allowing us to Knot with customers.

HSE POLICY

We are committed to provide a safe, healthy and friendly workplace for all our stakeholders. Health and Safety being our prime prerogative, we integrate them in all our business processes.

OUR PRODUCTS

AUTHORIZED SYSTEM PARTNERS

Turbine & PD Flowmeters / Densitometers /
Strainers

Pressure Control Valves / Breather Valves /
Flame Arrestors
