

ALABAMA ASSOCIATION OF SCHOOL OFFICE PERSONNEL

Objectives

To work cooperatively with administrative officers in the study of existing office and accounting practices with a view to improving them and of making them uniform.

To perfect ourselves professionally through mutual discussion of the problems arising for our work, to the end that, we may serve education and Alabama schools more adequately.

We feel that such discussion will make us more keenly aware of our responsibilities to our respective Superintendents and boards of education.

To gain the stimulus that comes from close acquaintance with others to similar duties and the benefits that arise from mutual work toward solving mutual problems.
