Are you tired of viruses, spyware and other types of infections? Virus protection software can only do so much and when it fails, you have to take it to a computer repair center and remove the infection. You also have to pay big bucks every time you get an infection. Now who wants to do that? With our Infection Removal Plans, you can have the peace-of-mind that if something does go wrong, you are covered! No more pay-per-incident expenses! Just a flat, yearly fee to have complete and total coverage!

Infection Removal Plans covers complete and total removal of ANY and ALL infections, ANY TIME during your subscription! Here's how it works:

- Purchase your choice of one, two or three year subscriptions to the Infection Removal Plan.
- ANY time you get an infection, bring it back to us and we will fix it, completely free as long as your subscription is active! If you get a virus every week, no problem! You are covered!
- In addition to removing infections, this will also include a System Optimization! We will remove any junk programs, general build-up and update Windows to get your system running to it's peak potential!
- If the infections are too severe to remove and we need to reinstall the operating system, that is covered with the plan as well! Data backup NOT included, separate charge will apply if needed.
