Covington Woods-Ivymount Drainage Improvements Project-DR1601

This is to notify you of an upcoming informational meeting of affected property owners to show proposed drainage improvements along Ivymount Drive, sections of Hitherfield Drive and Bay Tree Drive in Sugar Land, Texas. This project is currently under design by the City. This project will relieve street flooding issues along these streets by installing a larger storm sewer system and associated pavement replacement.

The purpose of this meeting is to present to property owners the proposed drainage improvements, water line and roadway pavement replacement. There will be an update to residents on the project status, project timeline and impacts on your neighborhood during construction as well as to answer any questions. City of Sugar Land staff and our design consultant representatives will be available for questions and discussion about the project. You and your neighbors are cordially invited to attend this meeting.

Monday, September 12, 2016
7:00 p.m. Prompt
Covington Woods Clubhouse
13743 Woodchester
Sugar Land, TX 77498

Those interested in attending who have special communication or accommodation needs are encouraged to contact City of Sugar Land Engineering Department at (281) 275-2780 at least 5 working days prior to the date of the meeting. The City of Sugar Land will make every reasonable effort to accommodate special language or access needs.

We appreciate your time and should you have any questions please do not hesitate to contact Idahosa Igbinoba, Project Manager, at 281-275-2780.
