

# “Wacky” Putty Recipe

## Ingredients

- \* 1 Part Liquid Starch
- \* 2 Parts Elmer’s White Glue  
*(not washable glue)*
- \* A few drops Food Coloring
- \* Zip log bag for storage

### Step 1:

Measure your glue & stir in the color of your choice.

### Step 2:

Measure your liquid starch, adding a few drops of color if you wish.

### Step 3:

Mix the two ingredients together, first with a popsicle stick....

### Step 4:

Then squish with your hands. There will be a little extra liquid starch...discard and keep squeezing! The mixture will eventually turn into putty!

### Step 5:

Amaze your friends with the wacky putty you have made! Spend hours of joyful entertainment stretching, squeezing, rolling and bouncing!
