I. Introduction

Your presence as an athlete draws the focus of public attention to you as a representative of DCS. Be constantly on your toes in the gymnasium, on the field, in the classroom, at home, and in public to display mature behavior.

DCS is very proud of the opportunities for athletic participation. These opportunities are believed to be a part of a student's total development as they assist in the building of positive Christian character and leadership traits.

Participation in any extracurricular activity is regarded as a privilege rather than a right. The following eligibility requirements are required of any student wishing to participate in any extracurricular activity:

- The student's behavior must be compatible with the school's Student Conduct/Discipline Policy. Any discipline infraction that warrants being sent to the administrator's office or contacting parents can result in a suspension of the student from the next game/event. Two such incidents during a season will result in a student's permanent removal from the activity.
- A student who is ineligible due to low grades or behavior infractions will be suspended from participating in games/events until conditions are improved. He/she is required to participate in all preliminary activities (i.e., practices and preparation times) and is expected to attend games/events.
- A student must be present for one half of the school day in order to participate in any athletic event (practice or game).

You have committed yourself to certain responsibilities and obligations as an athlete. It is the athletic program's intent through this handbook to acquaint you with the policies that are necessary for success of the athletic program.

II. Vision Statement

It is the mission of Discovery Christian School to provide a Christ-centered education which enables students to discover and glorify God, to pursue excellence in education with the Bible and Jesus Christ as our focus and to equip students for daily living and eternal life.

III. Academic Standard

All student participants in Athletic/ Extracurricular activities at Discovery Christian School must be exemplary members of the student body. Therefore, minimum standards of academic achievement have been adopted in order for student athletes to establish and maintain eligibility. These standards acknowledge that academic achievement takes precedence over athletic and/or extracurricular participation.

1. GPA: Students must maintain a minimum average of 2.0 GPA in the core classes. (Math, Science, History and English)
2. If GPA falls below the minimum required the student will be rendered ineligible for participation and be placed on athletic probation.
3. Each student will be assigned a letter grade as an evaluation for each class taken.
4. Previous nine weeks averages will be used to determine eligibility for all activities.
5. Each student will be assumed eligible for participation until the close of the current nine weeks and grades are evaluated.

IV. Probation Policy

Athletic probation occurs when the student fails to comply with athletic standards stated in this handbook. Students placed on probation are ineligible to participate in competition during their probation period.

1. Any student with a GPA that falls below the minimum average 2.0 in the 4 core classes will be placed on probation.
2. Once a student is placed on probation due to academic shortcomings, the probation period will last until the next formal, written student academic evaluation (i.e., the progress report) occurs. At that time, the academic record of the ineligible student will be re-evaluated.
3. To regain eligibility the student must meet the minimum 2.0 GPA requirement.
4. A student's most recent report card will be the sole basis of consideration.
5. Progress reports can help a student regain eligibility but may not be used to declare ineligibility.
6. After the grades have been re-computed for the progress report update, any ineligible student regaining eligibility status will be immediately allowed to participate in extracurricular activities.
7. If a student remains on probation for two consecutive nine week grading periods, that student will no longer be allowed to participate in the current activity and must meet standard for re-entry upon the next school year.
8. Students on probation must continue to participate in all scheduled practices.
9. All uniforms/equipment must be returned to head coach during the probation period.

10. Any student placed on school suspension will be automatically placed on probation during the suspension period.

**In the event a student has met all academic standards but drops significantly in academic performance during a time period when he/she is in no immediate danger of being declared ineligible, the coach has the authority to institute measures of accountability to help the student athlete get back on track.*

V. Attendance Policy

Coaches as well as the Athletic Director will monitor the attendance and eligibility of their students in coordination with classroom teachers.

School Attendance

1. In order to be eligible to participate in *any* athletic event (practice or a game), the student must be present in school for at least one half of the school day.
2. Any student tardy after 10:41 a.m. without a valid excuse and documentation prior to that day will be excluded from participation on that day.

Team Attendance

1. When selected for a specific athletic team, it is expected that the student athlete attend all practices and games pertinent to that team. Failure to make practices will result in extra conditioning as seen fit by the coach. Excessive absences from practice may result in the removal of the student from the sport.
2. In the event that an absence is unavoidable coach must be notified prior to scheduled practice.

Off Season Practice

1. Summer practices vary by sport and should be expected.
2. If there is any conflict with this, it needs to be communicated to the coach prior to the scheduled event.
3. Summer workouts require 90% attendance.
