

THREE POINT TRAILER MOVER

(TC200, TC150, TC100)

Just like everything from Central Welding Company, these handy tools are built stout. Simply mount the trailer mover to your tractor's three point hitch and you're ready to go. You can back under most gooseneck and bumper pull trailers and hook up in seconds! All models have a standard 2 inch hitch receiver tube, which allows you to utilize the same trailer ball mounts used on most pickups and S.U.V.s

**HANDY LIKE A SHIRT
POCKET!**

CONSTRUCTED WITH PRIME
2.5 INCH SQUARE TUBING
WITH 3/16" WALL. FRAMES
ARE FULLY WELDED, WITH A
1/4" THICK FRONT GUSSET
PLATE, AND 1/2" THICK CLEVIS
STYLE LOWER ARM TABS.

AVAILABLE TO FIT CATEGORY
1 AND 2 THREE POINT
HITCHES. QUICK HITCH
