Koh Klang is a traditional fishing community where visitors can see the living relationship between islanders and the sea. Our one of a kind team building concept here at Koh Klang provides a basis on which to develop a team using the island's many traditional vocations of the locals: fishery, rice farming, batik painting, arts and crafts as well as Southern Thai cooking. The car-free island also affirms the group's safety and low-carbon emission to the environment.

- DAY 4**
- * City Tour & Departure to Airport

BACK TO NATURE .. BACK TO THE BASICS

Nestled in biodiversity-rich mangrove area and friendly community of Koh Klang are major reasons why GOTEAMS Krabi has chosen this as the right spot for Corporate Social Responsibility (CSR) and team building activities. The mangroves are a nursery for marine life, providing a safe, protected environment for juvenile fish to grow, before they head out to sea. Mangrove planting, setting free of baby crabs, and community service activities like beach cleaning and school projects for the kids are invaluable CSR projects for this small community and it is absolutely worth a 5-minute boat ride to Koh Klang.

COOKING SESSION - THAI STYLE

DRUM CIRCLE PLAYSHOP IN KRABI THAILND
