

Each child has access to www.rethinked.com through their child account. This will allow them access to their student activity center which has games that their teacher has assigned specifically to them. This can serve as extra practice of their skills.

Each parent has access to www.rethinked.com through their parent account. This will allow you to see the current programs that your child is working on in class. There are training videos that will show you some of the methods that are used when we teach your child at school. You will have access to additional resources that are available for you to print via this website as well.

Each teacher has set up a Remind classroom that you can join. This will be a way to get further communication from your teacher which may include reminders, tips and additional videos.
