Use the iSi Gourmet Whip and the Rapid Infusion technique with herbs, spices, and fruits, even chocolate to rapidly transfer aromas to liquids such as alcohol, water, oil or vinegar. Previously this process required days or even weeks, but with Rapid Infusion this is reduced to a few minutes.

Use the Rapid Infusion accessories with an iSi Gourmet Whip – by applying pressure into the iSi Whipper using an iSi cream charger, the flavor of the solids becomes infused into the liquid, which develops a unique taste.
