

Illustrator Level 3 Practice

Ai Illustrator Skills

Level III

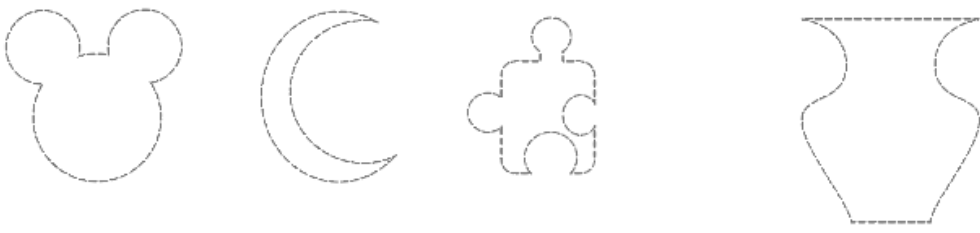

PRACTICE

TYPE TOOL: Use the type tool to perform the following tasks. Use a different typeface for each task.

Use point type to create a two word headline. Create a text box to create a short paragraph of text.
The text may be gibberish.

Create a curvy path with the pen tool. Type some text on it.

SHAPEBUILDER TOOL: Use the shapebuilder tool to combine basic shapes into these more complex shapes. **SYMMETRY:** Create a perfectly symmetrical shape below. Draw half with the pen tool.

MULTIPLE STROKES: Draw a rectangle and put two strokes on it. Make one stroke 10 points, make the other 20 points. Save your style as a graphic style. Create a circle and apply that graphic style.

For this assignment, you will master additional drawing techniques in Illustrator. Watch the [video playlist](#)

[\(Links to an external site.\)](#)

as well as all in-class demonstrations. Then, download the [Adobe Illustrator document attached here](#) and follow through the worksheet in Adobe Illustrator. Save the document, export as jpg and turn it in to complete this assignment. There are further instructions in the worksheet itself.

Reminder: You are drawing DIRECTLY on the worksheet that you download EXCEPT for the Sports Logo. Do all of the exercises on the worksheet, but start a new document for the Sports Logo.
