STEEL ARMOR – ULTRA DURABLE FLOOR FINISH

DESCRIPTION

STEEL ARMOR floor finish is formulated with acrylic co-polymers and a high degree of metal cross-links to produce an extremely tough, buffable “wet look” finish, resulting in better looking floors with less maintenance requirements than conventional floor finishes. It can be maintained with conventional buffing or with high speed burnishing equipment.

It is extremely detergent, scuff and black mark resistant yet easily removed with conventional wax strippers.

FEATURES

- **SLIP RESISTANT**
- **WET LOOK FINISH**
- **WILL NOT POWDER**
- **EASILY STRIPPABLE**
- **EXTREMELY DURABLE**
- **DETERGENT RESISTANT**
- **CLEAR AND TRASPARENT**
- **BLACK MARK & SCUFF RESISTANT**

USE AND DIRECTIONS

Strip old finish and apply 3-4 coats, initially, allow adequate drying time between coats. Dust mop daily with treated dust mop and damp mop with neutral detergent, as required. Spray, buff or burnish to renew “wet look” appearance.

See product label for complete directions.
