**LANCASTER RESEARCH & RECOVERY CLUB**  
**WELCOME - NEW MEMBER**

Welcome to the Club...The Lancaster Research and Recovery Club welcomes you wholeheartedly! By joining you have become an integral part of the sport of metal detecting.

Each month you will receive a newsletter/card concerning our plans for the month and happenings. Information from the Federation of Metal Detectors & Archaeological Clubs, Inc (FMDAC) and details on open hunts will be available at the meetings. Our meetings are open to the public and we encourage families to attend.

Your attendance and participation at our monthly meetings is needed and helps the club build and grow. We ask for your stories and tales of your recoveries... no matter what the results. Let us hear what happened to you. Our club provides assistance to local & state police, businesses and private citizens in recovering various items. If you would like to be a member of this team, Please sign up with your name, phone and the times/days you are available with the President.

If you know of someone willing to speak to our club and you think it would be of interest to the members just notify one of the club officers. We have a small library of books, magazines and videos you may check out, or if you have something to donate please do so. A volunteer helps keep this going. Refreshments are served at the meeting...members offer their time and skills to bring treats and set up a counter for all of us. Your donations help replenish the supplies. (Instructions are included with the floating refreshment box).

As you enter the meeting each month, sign the attendance book and pick up your name badge...wear it during the meeting...it helps everyone to get to know each other. We have a membership drawing each month...we also have other drawings that if you enter you can win silver and other prizes. Good Luck!

The club has two hunts each year, one in the spring and one in the fall. To enter these hunts you must be a paid up member. It's lots of fun for coins, silver and prizes. We sometimes have a kids hunt in conjunction with this if we have junior members in attendance.

Our Finds of the Month contest runs from April to November. The April contest includes all things you found from November meeting to the April meeting. All other months are only the items found from one meeting night to the next meeting night. Please abide by these rules. Remember to bring in all your finds each month because there are prizes for pulltabs, nails, shells, keys, etc....as well as coins and jewelry items. You can pick up display forms in advance and have them filled out before the meeting night. Make sure you sign your form and include all the items you have in your display. There are awards given each meeting night and also yearly awards that are presented at the Banquet in December.... Get involved...it's a lot of fun.

In this letter we have tried to answer some questions you may be wondering about, however we are sure you may have questions that this has not touched upon, so please feel free to ask a member or club officer. We would be happy to help.

Again, Welcome and Thank-you for becoming a member of the Lancaster Research and Recovery Club. **Reminder:** We meet the 1st Tuesday of every Month at the Kiwanis Pavilion #22 at the Lancaster County Park, Lancaster, PA. Meeting starts at 7:00 P.M.
