DESCRIPTION: Here is a funky unique bow that appears to have been custom made. The length and narrower limbs seem to indicate it was made in the late 1950's or early 60's. Still a shooter. Riser appears to be a type of birdseye maple. It has a laminated thumb rest on the side of the riser. This bow has no delamination; no cracks; limbs are straight. Overlays and tips are in good condition. No drilled holes. No chips, dings or cracks. A couple of faint stress lines on the facing limbs in the riser section only. No crazing. A few minor scratches and nicks here and there.
