

Heathkit Power Cords

Replacement power cord for Heath SB-300, SB-301, SB-400, and SB-401. This is a direct replacement cord for the original 2-wire cord used on Heath equipment. This cord has a ground wire for safety purposes which is attached to the ground terminal on the unit. The cord is 72 inches (6 feet) long and is for 120 VAC operation.

There are 2 "push on" female connectors which are connected to the original pins on the Heath power assembly. The ground wire has a terminal lug which is connected to the ground lug on the equipment.

Price for each cord is \$18.00 plus shipping for all but Texas residents. Texas residents have to add 8.25% sales tax making a total of \$19.49 each.
