WHOLESALE CATALOG

GENERAL INFORMATION

Cash-Volume Discounts

If accounts are paid on or before the 10th of month following billing they are subject to these additional discounts.

Total billing up to \$500 2% discount
Total billing \$500 to \$1000 4% discount
Total billing \$1000 or more 6% discount

Remittance must be postmarked by the 10th of the month unless this date falls on a Sunday or holiday. Billings are carried up through the last day of the month.

Terms

Cash with order or C.O.D. unless credit has been established with us. Send three references with whom you have had open account credit with for at least six months. Allow time for credit check. Send cash with first order if you wish to avoid a delay. If purchases are made for cash be sure and include enough for transportation charges. All overpayments will be refunded. Cash discounts are allowed only on orders of \$10 net or more.

Credit Returns

BOWS: Fasco bows should be returned via Parcel Post prepaid to:

SEATTLE ARCHERY, INC.

P. O. BOX 58

SEATTLE HEIGHTS, WASH.

Do NOT send via Railway Express

Do NOT send collect for charges.

Credit for charges will be given if due.

OTHER ITEMS: WRITE first describing reasons for return. Do not return shopworn merchandise. All returns are subject to a 10% handling charge unless it is due to an error on our part.

HOW TO READ YOUR CODED COSTS

The first figure indicates the number of items the price and the figures at the right, read backwards, gives the net cost. For example 1-097 indicates that one of these items costs \$7.90.

Transportation Allowance

ORDERS \$50.00 to 150.00.. up to 2% of invoice.
ORDERS \$150.00 or more.. up to 4% of invoice.

Above amounts will be taken off of the face of the invoice at time of sale. Do not deduct again when paying account. Balance is then subject to earned cash discounts.

EXCEPTIONS to above: Freight shipments are sent collect for freight charges. Deductions may be made at time of payment up to amount of allowance. Be sure and inclose freight bill with payment.

IN NO CASE WILL ALLOWANCE BE IN EXCESS OF THE LOWEST TRANSPORTATION COST.

C.O.D. Orders

25% deposit must be sent with order. No C.O.D. shipments on billings under \$25 net. Cash discounts and transportation allowances apply to all C.O.D. orders and if total orders for month entitle the customer to additional discount he may apply for a credit.

Shipments

Orders will be shipped by the cheapest method of transportation unless specified otherwise. No shipments may be made via Railway Express. All bows and packages up to 70# may be shipped via Parcel Post. Shipping charges will be added to the invoice and allowance made if coming. All freight shipments will be sent collect for charges.

Small Orders

PLEASE..no orders under \$10 net. These are handled at a loss to us. On such orders we must charge a 50¢ packing and billing fee which can bring such orders over retail price.

WE SELL TO DEALERS ONLY. WE DO NOT SELL TO CLUBS. POSSESSION OF THIS CATALOG DOES NOT CONSTITUTE A RIGHT TO BUY.

Shipping Hints

Many dollars can be saved by proper handling of shipments. We have made a careful study of this and will do what is possible from our end to speed shipments and hold shipping costs down. To do this we need help at your end. Shown below are some of the ways you can assist.

SEND ORDERS AIRMAIL The cost is only 3¢ higher and it can save two days delivery time. Special Delivery does not help in our area as your order would be shipped the same day anyway.

If in a real hurry for a few items, wire your order and the chances are it will be shipped the same day. The difference in the time zones helps here. . when those of you on the East Coast are at the end of your day we are still sending out orders. If very late send a cheaper Night Letter.

SHIPPING AIR PARCEL POST is very fast but rather expensive. To Parcel Post Zone 8 it runs 80¢ per pound and less as the distance decreases. A composite bow packed special for air will weigh about 2#-3#. You could save 2-3 days delivery time.

SPECIAL HANDLING on Parcel Post goes as First Class mail and can save 1-2 days. The cost runs 30¢-50¢ per parcel. SPECIAL DELIVERY is a few cents higher and includes Special Handling as well as Special Delivery in your city.

FREIGHT SHIPMENTS Up to about 60# the cost is close to Parcel Post but shipments are slower. You must pay for a full 100# minimum on freight shipments. "Fill-ins" of heavier items such as mats may be used as they "ride free". Mats 16" and 24" may be shipped P. Post but the cost is high. We suggest pre-paid factory orders on these. All arrow boxes must be shipped freight as they are large and heavy for p. post. WE CAN NOT SHIP EXPRESS.

OVER 95% OF ALL ORDERS ARE SHIPPED THE SAME DAY RECEIVED BY US. Special arrows or prepared glass or aluminum shafts will delay order 1-3 days. Specify if you wish other items on such orders shipped immediately

ARROWS IN THE LOW PRICED FIELD

SEE QUANTITY PRICE LIST

All arrows in this group are in gross and 1/2 gross display packs and are not available in individual dozen boxes.

50¢ RE-PACKING CHARGE ON OTHER THAN STANDARD PACKS

#300 30¢

Hard for competition to touch this one! Now a ful-dip color shaft, bright steel point, plastic nock, and 3" feathers. Shafts are good grade Port Orford cedar. Standard pack is 5 doz, 28", 4 doz, 26", and 3 doz, 24".

#300 Assorted gross List \$43.20 144-0612
#300 1/2 gross pack " 21.60 72-0011

#450 40¢

A change to 3" white and dyed white feathers has made this the most beautiful arrow in our line. Each pack has four different colored ful-dipped shafts making it truly a rainbow of color. Fine, straight Port Orford cedar. Available in full or half gross packs as well as dozens. Packed as #300 above.

#450 Assorted gross List \$57.60 144-0882
#450 1/2 gross pack List 28.80 72-0441

#625 55¢

One of our newest but most popular arrows. Made for adult archers who want a respectable arrow at a reasonable price. Matched in spine to 10# bow weights and available 35#-45#, 45#-55#, and 55#-65#. Ful-dipped color different for each arrow weight group and nicely crested. Good grade 4-1/2" feathers. Available in target, field, or tapered 50 with no points. 6 dozen display pack comes with best assortment for the season. All arrows for 28" draw only.

#625 Target gross \$79.20 144-0693 1/2 gr. 72-0891
#625F Field gross \$79.20 144-0693 1/2 gr. 72-0891
#625NP No point gross \$72.00 144-0063 1/2 gr. 72-0081

#500 45¢

Probably the finest buy possible to obtain in an arrow. You can raise sales from the low priced arrows because of the outstanding quality of these. Comes with a field tip installed and with beautiful 4" white and dyed white feathers. Arrows will safely take bows to 45# in weight. Large 5 stripe color cresting and ful-dip color shafts assorted to a box. Will take draw lengths slightly over 28". One length only packed in a gross or 1/2 gross box. Real value!

#500 Assorted gross List \$64.80 144-0223
#500 1/2 gross pack List 32.20 72-0161

CUSTOM ARROWS

TO SATISFY THE BETTER ARCHER

All MERCURY custom arrows are made in our own workshop by skilled fletchers and only the finest materials are used throughout. All arrows come in attractive display boxes with complete information on each box.

SPECIFY LENGTH OF ARROW AND WEIGHT OF BOW!

Worn on the belt on either side. Just touch it and free the fingers or hand of moisture. Used on glove or tab to keep smooth. Very popular for indoor or outdoor shooting.
#784 Wilson Pouch. 1.25 1-75

GLOVE POWDER

In handy squeeze plastic bottle with safety cap. Keeps glove or tab smooth and moisture off the hands.
#774 Glove Powder .50 1-33 12-063

Josey Site

WITH NEW ADAPTER THAT WILL TAKE ANY WIRE RETICLE WITH GLASS LENS, PRISM, ETC.

The finest value in a sight we have ever seen. It is precision made entirely of metal. Comes with two different types of reticles, crosshair and post.

- Mounts close to the bow
- Thumbscrew for positive lock
- Bends to fit any bow contour
- Constant spring tension
- Cadmium plated
- Vertical adjustment possible
- Marking tape in center of sight
- Nothing to break off or bend
- Top screw hidden by tape
- Low in price

Comes mounted on card in poly bag with complete list of sight parts and instructions on back.

#666 With parts shown. \$3.95 1-732

Reynolds

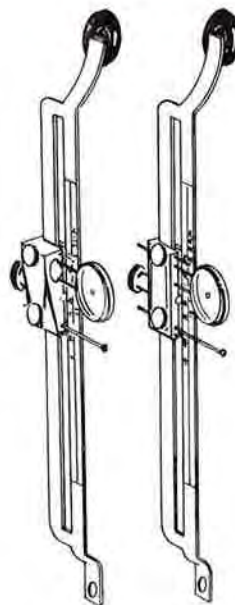

BOW SIGHT WITH PRISM HOLDER INCORPORATED

Many features have made the Reynolds sight one of the most popular on the market. An adjustment of the mounting bracket puts the whole sight back in calibration should a string be broken or if new arrows are used. The main sight body can be quickly removed from the bow without disturbing settings. The sight block comes with adjustable screw pin but any wire sight reticle may be used. There is no vibration as all of the adjustments lock solid. You can also switch quickly from bow to bow and be "right on" target.

#657 Reynolds Sight. \$7.95 1-774

SCHRAM SIGHTMASTERS

These fine sights offer the archer an advantage when combining a regular pin and a prism for longer yardages. When using the combination, yardage is set for the pin up to a certain distance and then is switched over to the prism without any changes having to be made in the sight.

The Supreme sight offers the added advantage of a rotating barrel for the prism so that it can be adjusted to be at exact right angle with the archers eye regardless of the angle the sight is mounted on the bow.

#628 Delux Schram \$6.50 1-093
#629 Supreme Schram 8.50 1-015
Prices include pin but not prism

SIGHT-N-LEVEL

A sight that mounts on bow with pressure sensitive tape. Main sight body adjustable up and down in the event of string breakage or different arrows. Individual lock on elevation and windage adjustment. Hood with fine pin and built-in level adjusts to any angle. Will also take any standard wire and lens.

#652 Sight-N-Level \$9.95 1-795

PARTS ARE AVAILABLE FOR ALL SIGHTS ABOVE

Sight Lens, Prisms, Levels

MICROME SITES

An inexpensive but effective bead post sight that has fine adjustment for both windage and elevation. Plastic covered metal. Hunting model comes with three slide & pin assemblies to provide fixed positions for 3 different ranges.

#610 Microme target sight 1.95 1-711
#611 Hunting 3 pin sight 2.95 1-771
#612 Extra slide and pin .75 1-54

The listed wire sight reticles will fit any of the sights shown on this page except the Microme. Order separate from sight itself. Wire frame included.
#LP-6 Plain plastic lens with dot. \$1.50 1-09

#LP-5 Plastic prisms in frame. Order by degree. 20, 40, 80, 120 \$2.00 1-021
#HB Hooded ball post and wire only. Open, no lens. \$1.50 1-09

#AGL Armour glass plain lens with crosshair and brass hood. \$5.95 1-753
#APL Same as above in prisms. Order by degree. 40, 80, 120. \$5.95 1-753
#SL Sight level in adjustable ring fits standard lens and ring. 98¢ 1-95

DRAKE

**ONE OF THE WORLDS OLDEST
AND FINEST BOW LINES**

A name and a product that have always been held in the highest esteem by archers and by other bowmakers. Drake has led the way in modern bow designing. Today's bows are even better than ever with stronger materials, new bow forms and new finish. Limited models make this line an easy one to stock.

Shark

Advance designing aimed at better control and stability in shooting. The oriental handle puts the archers' hand forward from the limbs creating leverage that makes it nearly impossible to twist or "heel" the bow. Beautiful laminated exotic hardwood riser with additional overlays.

5'8" Weights 25#-45# \$99.50 1-0795

Special weights available

Firedrake

An old favorite made modern by restyling and new stronger materials. One of the finest buys in a top target bow. Very stable, making for high scoring. Exotic hardwood laminated handle with additional overlays.

5'8" Weights 25#-45# \$89.50 1-0735

Special weights available

Hunter-Flite

Recognized the world over as the ultimate in great hunting bows. Short, fast and deadly yet attractive in appearance and design. A bow you will take pride in owning. Used by many famous bowhunters all over the world.

fast selling models for target or hunting

PRICES ARE SUGGESTED RETAIL

Model 25

Target or Hunting Bow

Low priced but with workmanship and materials equal to many bows priced higher. Nice recurve and with full 1-3/4" glass. Length fine for even the longer draws. The wide range of weights offer lots of sales potential for this bow to beginners and hunters both. Full sight window.

5'2" 20#-50# \$29.95 1-7971

Model 275

Delux Target Bow

Only the finest all the way through. Multiple overlays on walnut riser and tips. Built to take longer draws without danger or build-up. Full thumbrest is functional and adds to appearance. Fast recurve, deflex limbs.

5'6" 23#-43# \$69.95 1-7914

Model 35

Target or Hunting Bow

Very fast design and a better bow than the price would indicate. Full cutout handle and sight window. In the light weights it is great for beginners as it is very fast and for those who want a combination target-hunting weight it serves as both. Exceptional value.

5'3" 20#-45# \$39.95 1-7932

Model 60

Hunting Bow

One of the finest on the market at any price! Made from a proven hunting design that is deadly at any range. A special hardwood is used to add weight and strength. 2" glass offers better limb control and makes this bow practical and smooth at any draw. Rugged and dependable.

4'10" 37#-62# \$49.95 1-7992

Model 195

Target or Hunting Bow

A more delux model also made to serve both the target or hunting archer. Fine walnut riser with matching overlays makes this bow sell on sight. Bright finish, long sight window and tip overlays add further to appearance.

5'2" 25#-50# \$59.95 1-7953

MERCURY BOW GUARANTEE

Bows are guaranteed to the dealer for one year from date of invoice. Dealer receives credit of 50% of his original cost at any time during the year period. Bow may be repaired at our option and returned to the dealer at a flat cost of \$5.00 including postage. Dealer makes his own adjustment with the customer. Guarantee covers normal breakage and finish but no bows will be adjusted that show abuse or alteration.

NOTE: Dealer usually makes money on adjustments by charging 1/12th per month for use of bow.

SPECIAL BRANDING. Arrangements can be made with dealers to use their brand name on these bows if quantity purchases are made. Write us your needs.

ONE OF THE LEADERS IN THE TOP BOW FIELD

SKILLED CRAFTSMANSHIP

Fasco has not lost sight of fine workmanship in building bows. Our experienced bowyers take pride in their work and treat each bow as an individual. This leaves a mark of quality that is easy to recognize. It is tempting to take shortcuts but quality is easy to spot by the most important people, your customer and ours.

LIMB DESIGN

Most bow manufactures say very little these days about the limb designs. The saying "they are all alike" just is not true. The Fasco limb is widely recognized by top archers as being outstanding in the bow field. The use of parallel laminations allows us to make a narrow tapered limb in the re-curve area that adds a great deal of speed. The use of three or four laminations, instead of only two, makes a safe stable bow with this narrow limb.

FASCO'S "PIANO" FINISH

We admit we "stole" our finish from a piano refinisher, but only because it was the best we had ever seen. It is only possible to get a finish like this by hand rubbing and this is done on all the top Fasco bows. Another example of the quality found throughout the Fasco line.

FASCO FRANCHISE

The object of this Dealer Franchise is to offer the dealer protection in his trading area against competition in the same line of bows, and price control. This exclusive applies only to Fasco bows that retail above \$50 but price protection is extended to all of the bows.

In exchange for this we ask the Franchise Dealer to keep in stock a minimum of six bows, three of which must be the higher quality.

Write for complete details of this Franchise and application blank.

DELIVERY

Although it is not possible to ship every size and weight from stock we carry a very large inventory of finished bows. Very reasonable delivery may be expected on everything except very special orders.

GUARANTEES

We do everything possible to quickly handle all bows that come back within the guarantee period. Dealers can help with this by knowing and explaining the terms to the customer and making sure the guarantee card is mailed in at the time of sale. All bow returns should be sent Parcel Post insured to:

Seattle Archery, Inc.
Post Office Box 58
Seattle Heights, Wash.

MODEL CHANGES

In many lines of bows there is a serious problem of obsolescence. These discontinued models create the problem of selling below cost to clear them from stock.

We fully realize that changes must be made on occasions to stay in a competitive market but at Fasco we create a new number and gradually drop old numbers after long prior notice to the dealers. This eliminates the need to take less than your full margin.

This is just another reason why Fasco is good business for archery dealers.

Any dealer may handle the Fasco bows unless the area is taken up by a Franchise Dealer.

A FASCO FRANCHISE DEALER RECEIVES:

A supply of 4 page 2 color brochures similar to the centerspread in this catalog.

An attractive 4' x 8" three color sign for display in your store.

WITH THE **NEW LOOK!**

The **FASCO** **FUTURA**
MODEL 650

5 DISTINCTIVE OAK LEAF CARVINGS OPTIONAL

It's a great and totally different bow; distinctive in appearance and functional in design.

Handle weight has been shifted to inside of bow giving it clean graceful lines. Weight is separated, further providing more stability than ever obtained, and a different balance than ever before experienced.

The new short limb adds speed even in short draws and 5' 8" length provides smoothness in the longest draws.

The distinctive wood carvings are now on an optional basis and give the added touch to make it outstanding in the archery field. Uncarved model now has center section in new darker, heavier exotic hardwood.

Physical Weight: not too heavy, not too light . . . just right!

You will experience a new sensation when you see & try this fine new FUTURA by FASCO.

STRING WAX

A fine string wax packaged in a bubble pack that shapes the cake. Carton of 12. #B-117 Wax .35 1-32 12-252

Bohning Tex-Tite bowstring wax in a "lipstick" tube. Special formulation prevents hardening on the string.

#510 Tex-Tite wax. .45 1-03 12-423

SAXON FEATHER REST

Gives truer arrow flight. Installed in just a few seconds on any center-shot bow. Helps hold arrow against bow handle, quiets release, and protects crest against damage.

#802 .50 1-33 Display 12-063

HORIZONTAL FEATHER REST

Double feather for support. Mounted on adhesive backed thin aluminum. Small contact felt mounted above the feathers. Flexible feather gives way as arrow passes.

#456 List .75 1-05 12-045

HOYT FLEX-REST

Provides an arrow rest on the side of the bow just above the shelf. Flexible so that it gives as the arrow feathers pass by. Equally good with feathers or vanes. Special adhesive surface for almost instant attachment to bow.

#441 Flex-Rest .50 1-33 12-063

HOYT PRO FLEX-REST

Upper pressure plate is adjustable in or out to control spine and assures clearance of plastic vanes. Flexible arrow rest moves out of the way as arrow passes and is hooked on the end to prevent arrow from falling off.

#570 Hoyt Pro Rest \$1.00 1-66 Display of 12 12-027

PLASTIC ALL-WEATHER REST

A flip rest that does everything you could ask for and is weatherproof too. Clear plastic with adhesive on back. One piece construction.

#442 .50 1-33 12-063

BRUSH REST

Mounts horizontally. Top grade nylon brush fastened into leather back. Unit has self-adhesive on the back. Ideal for use with plastic vanes or feathers.

#645 .75 1-05 12-045

NEET PLASTIC ARROW REST

Vinyl convex plastic rest mounted in leather with self-adhesive back. Good with feathers or vanes.

#633 .50 1-33 12-063

HAIR-REST

Directional unborn calf hide as used on finger tabs. Very slick and smooth and dampens arrow noise as it leaves the bow. Very good for hunting bows. Self adhesive mounting and fits both the arrow shelf and the side of the bow.

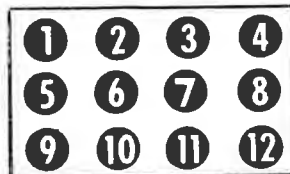

#643 Hair-Rest 39¢ 12-182

CREST DECALS

Takes the work out of cresting and eliminates equipment. Just wet and apply. Packaged in dozens for display. Various colors and designs.

#786 Crest Decals .50dz. 12-03

NUMBER DECALS

Each contains numbers 1-12 for arrow identification. Sold by us in 100 lots only for dealers to sell or give away as a goodwill builder.

#761 Number Decals 100-522

SAUNDERS ELECTRONIC DRAW-CHEK

A wonder in miniature electronics. Light goes on when archer reaches full draw. If he lets down on arrow light again goes off allowing him to redraw properly. Easy to install and almost unseen on the bow. Cures one of the most common archery faults.

#646 Electronic draw check 14.95 1-798

HOYT KLICKER

Helps cure the freezing habit and assures the archer he is at full draw. It won't let you "creep". Allows development of better control in shooting.

#457 Hoyt Klicker \$1.25 1-75

Display of 12 12-009

BOW STRINGER

A very simple yet very easy stringer for even a child to use. Uses the only proper approach to bow stringing: that of lifting straight up. Takes all the work out of stringing any weight bow!

#535 Bow Stringer \$1.98 1-911

BO-TALLY

Bo-Tally attaches to the back or front of your bow or fits in your pocket. Just add score on latest target to previous target. Should last forever.

#960 Bo-Tally .50 1-33 12-063

FIELD SCORE CARDS

A single pocket size card for 56 targets. Well liked by clubs as it puts complete days total on one compact card. Room for all other information. Comes white or colored for easy separation of freestyle and instinctive.

SC-1000 1000 cards. 9.00 1M-045
 SC-500 500 one color. 5.00 500-003
 SC-100 100 one color. 1.25 100-57

PLASTI-FLETCH

Plastic vanes or feathers used by many of the countries leading archers for fine precision shooting. Should be used with a special rest mounted above regular shelf. Pliobond glue best for mounting. Sold in 100 of one color or size.

FLEETWOOD BURNERS

Available in kit form or assembled on a board. Kit has all pieces loose except board. Includes cord, plug, and 3 extra wires. Easy to assemble.

#755 Complete Kit. 2.95 1-771
#756 Complete assemb. 4.95 1-792
#790 Burner wires. Doz 1.20 12-27

SIMPLEX FEATHER BURNER

Excellent burner adjustable for length of wire. Uses ribbon type wire. Comes completely assembled.

#761 Simplex Burner 4.50 1-072

EASTERN FEATHER BURNER

Delux burner with switch and adjustable base making it easy to set feather properly against burning wire. Completely assembled.

#760 Eastern Burner 5.50 1-033

WIRES FOR EASTERN & SIMPLEX BURNERS. Pkg. 3 .30 3-81

MERCURY GRAIN SCALE

The finest scale ever made for weighing arrow shafts. Has a clock face and is scaled to 10 grain breakdowns. Also marked at 25 grain breaks. Special leveling device assures accuracy on uneven surfaces. Accurate to 5 grains.

#792 Grain Scale. 18.95 1-2 1-0531
3 or more each 1-7311

ARROW STRAIGHTENER

An item that is simple yet outstanding in its field. The average archer can learn in a few minutes how to straighten an arrow, even sharp bends behind the point. Arrow is turned with the right hand and pressure is applied with the left to straighten. No bushings or accessories needed. Low in price. Comes complete with directions and mounted on display card.

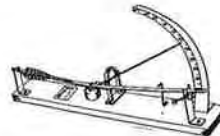

#566 Stratario 4.95 1-792

GROVES ARROW STRAIGHTENER

Still the finest we have seen for aluminum arrows. It straightens bends even at the tip and under the feathers. No bushings are needed for various sizes. Nylon V blocks are movable for short or long bends. With a little practice you can straighten any arrow.

#793 Straightener 22.95 1-7731

TESSIER SPINE TESTER

An inexpensive yet accurate shaft spine tester. Very easy to operate. Cam adjusts quickly to zero to compensate for crooked shaft. Readings are standard with other testers.

#445 Spine Tester. 16.95 1-1721

TESSIER ARROW CRESTER

With positive drive 200 RPM motor with spring type chuck assuring centering of shaft. Takes all size nocks without adjustment. Triple ball bearings, spring loaded, firmly hold shaft about 10" below nock.

#446 Tessier Crestor 18.95 1-2241

ACCURATE TENON TOOLS

Low priced combination tools that cut shafts for both nock and 5° taper.

TT-2 For 5/16" shafts. 1.50 1-09

TT-3 For 11/32" " 1.50 1-09

Blades for above .25 1-51
(specify nock or 5° taper)

BLACKHAWK TAPER TOOL

Includes four different size bushings for different shafts used. Cuts both nock and hunting-field taper. Uses Schick ejector razor blades that may be had in any drug store.

#664 B.H. Taper Set. 3.50 1-012

EASTERN TAPERING TOOL

A new precision tool aimed at archery shops who must do fast accurate work. Aluminum body, hollow ground blade of fine tool steel and adjustable stop. Comes with 3 different size interchangeable bushings.

#705 For nocks only. \$7.50 1-054

#706 For 5° taper. \$7.50 1-054

#800 Blade for either. \$1.00 1-06

NOTE: Be sure and order by number.

55#						2114	2114			

On bow weights in between weights above use nearest one. For example: Bow is 43# @ 28", use 1816 shafts. Indicated shafts are for target. Step up 3# for hunting or field.

SHAFT SIZE — There are 22 stock sizes in each of the two alloys. The shaft size number designates the diameter of the shaft in 1/64ths of an inch and wall thickness in thousandths of an inch, e.g. 1816 is 18/64" (9/32") diameter and .016 inch wall thickness. This method of shaft identification was originated for, and applies only to EASTON 24SRT-X and XX75 shafts. Every shaft is marked with the alloy and size number.

24SRT-X Full length, points loose. #EFL \$20.80 doz. 12-8421
 12 doz. or more 144-@3211

ADD .10 LIST TO SHAFTS ABOVE IN LESS THAN 1 DOZEN.

SHAFT ALLOYS — 24SRT-X — These shafts produce arrows that have been the standard of quality since 1946. World individual and team championships, all National championships, all recorded perfect ends at 80 yards, five consecutive six-gold ends at 40 yards, and 776 American Round score are some of the accomplishments of archers shooting 24SRT-X.

The NEW ALLOY — XX75 — The extremely high strength inherent in 7075 alloy is further increased by many operations in our plant to an ultimate strength of up to 101,000 psi, as much as 20,000 psi over listed ultimate strength of this alloy. With this increase in strength comes a large increase in the yield strength, which gives XX75 its amazing bend resistance and spring qualities.

To produce this high-strength alloy, zinc, magnesium, copper, and chromium are alloyed with the aluminum. These alloying metals increase the weight of XX75 exactly 1% over 24SRT-X; and also alter the physical properties of the alloy (1.8% decrease in the modulus of elasticity) producing a shaft with slightly less spine than 24SRT-X.

Both 24SRT-X and XX75 are produced solely for arrow shafts and are etched with the registered trade-mark 24SRT-X or XX75 and the shaft size for your assurance that you are shooting the World's finest arrow shaft.

arrow shafts...

precision-made fiberglass tubes specifically developed to produce the PERFECT arrow.

PERMANENTLY STRAIGHT New Micro-Flite shafted arrows are straight when you buy them—and they stay straight! They're perfectly precisioned in manufacture, and because they're made of stable, durable fiber glass, they never dent, bend, warp, or corrode!

ALL WEATHER DEPENDABILITY New Micro-Flite shafts remain unaffected by temperature or humidity—wherever you go—whenever you use them. They're stable in any climate, and maintain their original qualities for life!

UNIFORMITY Lightweight Micro-Flite shafts are manufactured on specially engineered equipment under the strictest production controls. This produces exceptionally high standards of uniformity in the weight of each shaft. Complete uniformity is achieved by electronically grading for diameter and straightness.

Gordon

Makers of Bo-Tuff glass

GLASS SHAFTS

A new quality glass shaft in the low price field. Glass fibers go around the shaft so no seam is formed to create uneven spine. Shafts do not have to be sanded before fletching. All are 32" in length. Order shafts by bow weight and length of draw.

Gordon shafts are rough matched in spine and weight. Exact match is not guaranteed and shafts will not be accepted back based on complaints in spine or weight matching. Straightness is usually within about .015 in a 26" distance. We do not recommend these shafts for fine tournament shooting. They are very durable and are pointed more at the beginner who wants a reasonable priced arrow with a minimum of breakage. Very fine for school or camp use. Note the special arrow for his use in another part of this catalog. Shafts are in about 5# breaks. Order from chart on the back cover.
