

PATENTED VERTICAL TECHNOLOGY COLOURS OF YOUR CHOICE....

The 'Guardian' brand of compact Gensets bring international standards to Indian homes expecting a better product experience. Sleek looks, smallest footprint, low weight and careful customer support, sets 'Guardian' Gensets apart from competition. Our patented Vertical technology gives you uniquely styled Vertical generators ranged between 25-125 KVA, to keep all the home and office equipment going at all times. Thoughtful features incorporated in design and controls make them user friendly.

WHY GUARDIAN ?

Guardian has a variety of features that are devised to fit your needs and requirements; be it the size, styling, quality of power, the efficiency or safety. We have taken all meticulous steps into building our products according to your lifestyle, so that you have a product that gets into your system without demanding too much of you, leaving you satisfied that there is something that can take care on its own, taking its own responsibility. It's a small burden that is lifted off your shoulders; and adds a lot more peace in your life.

FRIENDLY POWER GENERATOR

There are times when you think if machines could have a mind of their own and if they understood you. We strive to achieve exactly that and this frame of mind is what reflects in our products. We have seen to it that solutions for your requirements are infused into our machines, so that you feel comfortable. Getting one of our generators is like adding another well wishing member to your family who is responsible, safe and also extremely reliable; which means more time with your family and a whole lot of happy moments together.

Unique Styling

An elegant Casing and unique flush styling keeping in mind preferences of today's discerning users.

Colour of your choice

Colour of your choice adds to the ambience of your place

Enclosed Silencer

For better looks and compatibility the silencer is designed inside the generator casing.

High quality power

Guardian generators are tested to ensure that they give you the perfect voltage and Frequency so that your equipment performs upto the mark and improve it's life too.

Smallest Footprint

Patented Vertical technology ensures Smallest footprint and gives you the advantage of optimising your valuable space

Truly Authentic

Guardian is built using high quality components and is CPCB certified, thus making at a preferred choice across business segments and consumers.

INTELLIGENT MACHINE

We have got the best of technological achievements to meet and culminate into a Guardian power generator. The greatest of your requirements are taken into consideration and the best in class features are added to ensure you always have a smile on your face. Our smart and responsible product features are bound to delight you and create envy amongst your neighbours.

- Size does matter : The entire range of Guardian Generators are smaller in size & dimensions when compared with other leading brands. Our smaller form factor helps in better handling & installation of the generator. No more bulky machines, saving your valuable space.
- Our Range : We offer a wide range of generators from 25 kVA to 125 kVA to meet all your power needs.
- Unique Styling : Our Vertical range of generators have an elegant casing and a unique flush style. No more industrial machine type of looks.
- **Power in the blink of an eye :** We are the GEN NEXT for whom everything was supposed to be done yesterday. That is exactly why in case when power fails, Guardian restores it faster than others.
- Expert consultants, your ally : We understand that you don't speak our language of '*kVA*'... So our team of experts will visit you for a site survey and advice you on the model that suits your needs.
- **Response for initial installation :** It is not only our generators which are quick in response. Simply call us, confirm your order and enjoy the benefits of Guardian power in the shortest duration.
- A long term relationship : We go an extra mile when it comes to providing a full range of support services for our users. We carry out all maintenance, repairs and services on our engine, alternators, fuel and exhaust systems as well as all generator control systems and electrical panels. We also provide a 24X7 Customer Support and an emergency call out service 24 hours a day and 365 days a year for fault diagnosis and repair in the shortest response time, as we believe in long term strengthened relationships.
- Servicing on Steroids : Our generator can be serviced with a minimal fuss; quickly and efficiently owing to our unique product design features.
