

How does the process work when selling my house to you?

The process is very simple. You can either fill out the fast offer form or give us a call to give us information about the house you want to sell. If the house is one that would fit our investment criteria we will schedule to see the house. When we meet you at the house we walk through and look at what repairs or other changes are necessary. Using this information, we can usually make you an offer on the spot. If we come to an agreement on a price, we will draw up a contract that is then taken to a title company. The title company prepares for the closing. You receive your money for the house at the closing and you're done!
