

Kolkata River Cruises.

It is said the Mahanagar Calcutta or Kolkata as she is called now, grew along, this great River Ganges. From the time when Job Charnock dropped his first anchor at Cossim Bazaar to the modern monolithic bridge, the second Hooghly-Bridge, the winding river has woven itself around the lives of this city. A Cruise on the Ganges, will be the best way to explore the city.

There are 54 ghats (quayside) and all have great history and heritage. Some of them are Bathing ghats, Ceremonial ghats where rituals are performed and then the Ferry ghat which connects the two banks at various places. Many monuments, memorials and markets are there by the river side, to be explored & experienced.
