Dear Burton,

I am writing to recommend the services of the team at Adaptive Projections. We had them assist with the audio / video portion of our recent launch event for the 2014 Porsche Cayman.

The interactive technology and cutting-edge technology helped add a fun and modern element that kept the audience engaged and asking for more.

Their professional installation and dedication to excellence was what Delta Imports and our Porsche clients expect from a partner. The team at Adaptive Projections delivered.

Thank you for your creativity, service and professionalism. I am happy to recommend your services to other looking to enhance their next social function.

All the best,

Ryan Coe

General Manager
