

Becky Flummer –Math Teacher

Becky Flummer has been teaching high school math for the last 30 years. She was born and raised in San Antonio until she went to Texas A&M University and got her bachelors of science degree in Curriculum and Instruction (Secondary Math and History) '91 and then her master's in Educational Psychology (counseling)'92. She is certified in secondary education by the state of Texas.

Mrs. Flummer began her teaching career at MacArthur High school in 1992 and then moved to the Fort Worth area to teach in 1996 while her husband finished seminary and then they both taught in the Arlington/Mansfield area for a few years. God brought them back to San Antonio in 2000 to teach at the newly opened Reagan High School and be closer to family. Becky taught math and Jon taught speech and English. (He is still at Reagan and just completed his 21st year of teaching there!) When their 3rd child was born, Becky took “a year” off and God opened the door for her to teach at a home school coop 2 days a week. That “year off” from public school became 18 years. Becky has taught math to homeschool groups and private tutored for these last 18 years and has also taught part time at San Antonio Christian Schools for the last 2 years, and was a math tutor for them for 4 years before that. When SACS would only allow her to be full time, she decided it was an answered prayer to pour all of her time and energy into her homeschool classes and tutoring once again.

Mrs. Flummer LOVES teaching! It is her passion and she believes that everyone can learn if taught in a way that they can understand. She has taught Pre-Algebra, Algebra 1, Geometry, Algebra 2, PreCalculus, Calculus and SAT/ACT prep Classes. She loves getting to really know her students by teaching them for several years as they progress through her math classes. This is such a blessing!

The Flummer's have 3 grown children. Their daughter, Bethany, graduated from Texas A&M and is the preschool minister and assistant to the children's pastor at a church in Austin. Their oldest son, Zac, is working the ropes staff at Camp Eagle this summer and will be a junior at Baylor. Their youngest son, Jackson, just graduated from Reagan HS and will be in the corps of cadets at Texas A&M majoring in engineering in the fall. They also have 3 dogs and a grand-dog!

Both Becky & her husband are very involved in their local church. Jon teaches youth Sunday School and Becky works in the church nursery. They enjoy home improvement projects and spending time outside. The Flummer's also love to travel and used to take month long “Flummer Summer Road Trips” when the kids were little and have traveled to 48 of the 50 states (missing Washington and Alaska!).
