Wheely-X

Fitness is crucial, especially for someone who is seated every day. Wheely-X is made for wheelchair users' overall fitness sustainability and enhancement. Users can use their own manual-type wheelchairs to roll on Wheely-X and enjoy fitness content with cardio workouts.

Wheely-X is a product developed and patented by Kangsters own technology. Features include 2 sensors attached to the rollers measure your left and right arm balance separately, Course Training mode ,Keep track of your record in your history tab to visualize your data and set higher goals each day.

From 2023, Wheely-X can be downloaded in IOS and Android(2023 Mar) on your tablet or smartphone.
