

Product data sheet

TERRA BRUSH

Multifunctional brush for golf greens, tees, fairways, grass pitches and sport fields.

The TERRA BRUSH promotes healthy growth, is suitable for brushing in sand, rubber infill and top dressings; levels off and breaks down cores, disperses dew, improves ball performance and reduces mower maintenance.

The TERRA BRUSH is available as an attachment to a three-point tractor hitch or as a model that can be towed by a vehicle with a tow bar such as utility vehicle.

Specific feature: The hitch position can be easily reversed. Which allows an even and cost-saving abrasion of the brushes.
