ISO 14001:2015 Fundamentals - 2 Days

Program Overview

This course provides participants with an in-depth understanding of the specification. In addition, it provides the knowledge, and required skills needed to implement and effective Environmental Management System that is in compliance with ISO 14001. It includes a detailed review of each element to include the internal linkages and dependencies between the elements. This course is designed to provide the participants with the appropriate framework to ensure regulatory compliance to the appropriate environmental laws and regulations. This course utilizes the latest training methodologies and uses a combination of lecture, group discussions, and hands-on exercises, practical applications and examination to ensure each participant leaves with the required knowledge and skills to implement and assess compliance against the ISO 14001:2015 standard. Throughout the course, participants undergo a series of formative and summative assessments by Accredited Instructors and Subject Matter Experts. Participants that successfully complete this course will receive a unique tracking and certification number issued by Wollam Groups

Summary of Course Curriculum

This course covers the entire specification, to include its intent, application and interpretation of requirements, including:

- History and Importance of ISO 14001
- Overview, Scope and Exclusions
- Context of the Organization and Leadership
- Planning, Support and Operation
- Performance Evaluation and Improvement

In addition, participants receive a typical framework for implementing the standard and specific documented information requirements of ISO 14001:2015

Who Should Attend

This program is designed for anyone who has a responsibility to develop, document, implement, maintain or assess their environmental management systems, to include HSE, auditors, operations, HR, and other support functions.

About the Founder and CEO

Bryan Wollam

Bryan Wollam is one of the world's most respected professional in the Petroleum & Natural Gas Industry, known for his unmatched track record of success, desire for winning, partnerships, value propositions for clients, passion to improve the industry and drive to make the world a better place. He is a member of the API Committees that develop the API Specifications and an accomplished professional with broad experience and recognition in operational excellence, quality, reliability, and HSE in multiple industries. He has expertise in leading organizational transformation resulting in profitability and shareholder value. He is also known as a distinguished speaker, effective communicator and trusted advisor to all segments of the Petroleum & Natural Gas Industry.

In his 22+ years in the industry, Bryan served in leadership positions for Fortune 500 companies and as CEO for Wollam Petroleum Advisory Group (WPAG), Wollam Groups and Wollam Auditing Services working with more than a hundred of the world's most successful oil and gas companies. His management techniques, professional training programs and his ability to help clients transform their quality, reliability and safety performance is unmatched. The achievements are considered epic, and as a result, state-owned, international, national oil companies and service supply organizations utilize him for training and advisory services. He sits on boards and committees for multiple trade organization to include API, IACET, and IADC and collaborates with multiple government entities for the applications of different specifications.

Bryan has been defined by his zealous love of teaching and commitment to building leaders that transform organizations. WPAG has created the industry's most coveted training programs, and he regularly teaches these programs. Wollam Groups offers executive education and management training resulting in professional certifications and CEUs through IACET. Bryan is intimately involved in every aspect of the business. As CEO, he interfaces directly with industry leaders and gets to know each client.
