Bankruptcy 101:

You are Not Your Credit Score

Question: What is your credit score and why do the lenders make such a big deal about it? How will it affect me in these times?

Answer: Back in the 1950's a company called the Fair Isaac Corp. (FICO) developed a formula which was marketed as a way for lenders to realistically evaluate their risk with regard to lending to a specific person. FICO assigned mathematical quantities to patterns of behavior (like how often one pays late, whether they have unsatisfied legal judgments, etc.) and computes those quantities

into a numerical risk factor which is known as our "credit rating." FICO sells people's credit ratings to lenders based on their FICO formula which is a trade secret and legally protected.

There are other companies like FICO which have come up with their own secret form of credit rating which they also sell to credit reporting agencies such as Equifax, Transunion and TRW. In my mind, these companies secrecy causes me to question their integrity and the efficacy of their formulas. FICO should willingly disclose the science behind their mathematical formula so it can be challenged and discussed. It only seems fair that a rating factor

which affects so many people's lives, whether it be for getting credit, a job, security clearance or the trust of another person, should be open to investigation. How do we really know its not complete voodoo?

There is a widely held belief that FICO and the entire individual credit rating system was developed by the elite to keep the middle class in their place. "Their place" is presumably in a constant state of fear over their financial rating willing to pay the banks any interest rate or penalty without question.

In our bankruptcy practice, we spend a large portion of our time helping people get back

on financial track. I see people regularly who enter my office in a state of hopelessness and are healthy, happy, laughing and spirited six months down the line. Bankruptcy stays on your credit for ten years. But my response to that is "So what?" Anybody who really wants to get credit and buy another house can do it in three years or better. Even with a very low credit rating. They will have to be creative nowadays. But that is a topic for a different day. So the focus should not be on your credit rating but on your ability to pay back a specific amount of a loan within a specific period of time. I tell our bankruptcy clients: "yes, try to get a loan you can afford as

soon as possible and pay it back early. This is the beginning of your life of financial responsibility."

The "fresh start" that one can receive, often times, through bankruptcy is extremely valuable in terms of peace of mind and freedom from stress. Do not put yourself or your family through unnecessary mental hardship. If you think bankruptcy can help, there is only one way to find out. Schedule a free consultation. Often times, we can do the consultation over the phone. The bottom line is that a bankruptcy will not make most people's credit rating much worse than it was already. And it is a new start for your credit rating also.

Medicare Myths You Need to Know

Many people have little experience with Medicare until the time comes for them to enroll. Many have some mistaken beliefs about the coverage it provides. Here are a few of the most common misconceptions.

Myth #1: Medicare covers 100% of your medical expenses

Original Medicare covers only a portion of your medical costs. Medicare coverage amounts to only about 80% of your Part B expenses. Prescription coverage is not included, and you will be responsible for premiums, deductibles, coinsurance, and copayments. In addition, Original Medicare does not set an annual out-of-pocket maximum on your share of covered medical expenses, so a major illness will mean major expenses for you. Medicare Supplements and Medicare Advantage Plans are two different types of coverage that can help keep your out-of-pocket costs in check.

Myth #2: All types of medical care are covered by Original

Medicare

Unfortunately, there are some big gaps in coverage provided by Original Medicare. In most cases, Original Medicare does not cover vision, hearing or dental costs. This is one of the reasons why many people choose Medicare Advantage plans. Most Advantage plans include coverage for prescriptions, vision, dental, hearing, and other services not covered by Original Medicare.

Myth #3: It is best to get the same coverage as your spouse

Not always true. Unlike health insurance provided by an employer, Medicare does not offer family coverage. Each person must apply Medicare on their own. Additionally, just because your spouse is satisfied with their coverage does not mean it is the right type of coverage for you. You need to consider your medical and prescription needs as well as your financial situation before making a choice.

Myth # 4: You are automatically enrolled in

Medicare

You do not automatically receive Original Medicare (Part A and B) once you become eligible. If you are not receiving Social Security retirement benefits or Railroad Retirement benefits, you will need to enroll through the Social Security office.

If you would like to learn more about Medicare, please contact me. I regularly present a class,

DESTINATION BACKYARD...

Living in Northeast Ohio, we tend to neglect our outdoor living spaces. Then late May rolls around and the sun shines, temperatures rise and we emerge from our homes to find an outdoor space that's not so inviting. American Home and Energy Products in Painesville, has everything to create the outdoor living area you've been dreaming of all winter long.

Talking about all that American Home and Energy Products offers would take much more space than we have here. That's why you're encouraged to come out to the store, take a stroll around the grounds and discover for yourself what they can help you do with your home.

"When I opened the store in 1999, we mainly focused on patio pavers, natural stone, ponds and waterfalls," says owner Chris Bedrick. "Today we have indoor and outdoor fireplaces, patios, fire pits and retaining walls and outdoor kitchens including the best grills, smokers and kitchen accessories. We also have structures to create outdoor rooms and the very best outdoor furniture. All of these project ideas can be installed by most homeowners or we can assist you with finding a reputable installer."

With experience in landscaping and home construction, Chris is knowledgeable in all areas of the home. He makes it his mission to stay current on all of the latest trends.

"I travel to seminars all over

the country so I know what's coming," says Chris. "My staff and I are extremely knowledgeable and ready to guide you through your project—no matter how big or small. And if it's too much for you, we'll recommend someone who can help. We deal with many contractors throughout Northeast Ohio who rely on us for quality products and knowledgeable service."

Walking through the shop and surrounding grounds at American Home and Energy Products is an experience. Several unique and elegant outdoor displays showcase some of the exciting home improvements that can be made to increase the value of your home and upgrade living spaces for your family to enjoy for years to come.

Additions like outdoor cooking areas, fire pits, water gardens, pondless water features, decorative stones and lighting can take your backyard to a whole new level.

"No backyard is complete without a water feature," says Chris. "And it doesn't have to be elaborate. You can do a pondless feature where the water disappears into a basin underground, add some decorative stones, and even add a koi pond. It adds a new dimension to the home and creates a relaxing vibe that is very popular."

American Home and Energy Products is a destination spot for outdoor living inspiration. And to be really inspired stop by the store to

see over 2000 square feet of displays and ten different departments of product.

"We want your outdoor areas to be a place to enjoy with family and friends," says Chris. "Why not have your most relaxing destination be your own backyard?"

American Home and Energy Products is located at 1270 Mentor Avenue in Painesville. Hours are: Monday-Friday 9:00 a.m. to 5:30 p.m., Saturday- 9:00 a.m. to 4:00 p.m.; closed on Sunday. For more information, call 440-358-5858, or visit American-Home.com.

Happy Birthday to Elizabeth and Wyatt, they were brought birthday celebrations during the month of May by the Birthday Club. The birthdays were simply spectacular and the community support has been overwhelming. There is a small group of individuals

including: Councilman Charlie Malta, Sherri Falkenberg, Paula Price from 100 Youth that Care, and others that have created a monthly birthday club for special needs children that live in Eastlake and Willowick. The idea is to identify one Eastlake and one Willowick special needs child each month and take them a birthday celebration with a cake, presents, small celebration, and recognition award for their birthday.

throughout Northeast Ohio, along with honest, fair prices.

Steve Douglas the owner of Mentor Window was asked about how they continue having such success in the home improvement industry. "We have crews that have been with us for decades, and we are very particular about the installers we hire. We won't just hire anyone to catch up if we are backed up a bit, quality is at the top of our list when it comes to workmanship. When it comes to pricing, we are straight forward with people, they don't want to

hear any buy 1 get 1 free nonsense. They want a fair, honest price up front without all the gimmicks you see out there in advertising. We treat each and every one of our customers like family."

"Only about 5% of the Home Improvement companies in Northeast Ohio have performed consistently well enough to earn our Super Service Award," said Angie (founder of Angie's List.) "It's a really high standard."

Angie's List Super Service Award 2020 winners have met strict eligibility requirements,

which include an "A" rating in overall grade, recent grade, and review grade period; the company must be in good standing with Angie's List, pass a background check and abide by Angie's List operational guidelines.

Service company ratings are updated daily on Angie's List. Companies are graded on an A to F scale in areas ranging from price to professionalism to punctuality.

Mentor Window offers a full range of home improvements, including Energy Star Tilt-In double hung windows, slider
