Quality Systems Consulting

Is Your Company Prepared?

--- ISO9001:2015 --- AS9100-2018 --- SQF2000 v8 --- ISO22000:2018 ---

Quality Systems Consulting

I can provide low-cost on-site consultancy for developing a tailor-made Quality Management System (QMS) with the aim of helping your company improve and increase its competitiveness and achieve certification from an accredited certifying body. I help you understand and apply the quality management system requirements while ensuring that your program proceeds smoothly. A QMS based on one of the above standards is recognized worldwide as an excellent tool for improving performance and, increasing customer satisfaction. I utilize a System Implementation Procedure which guides you through the implementation and development of a QMS as follows:

GAP ASSESSMENT - Review of existing practices and documents against the requirements to determine what the project plan, time and costs are going to be to achieve the Quality management system certification.

SYSTEM DEVELOPMENT - Depending on the Gap Analysis, several modules may be necessary to prepare to meet the standard or standards

IMPLEMENTATION- I will work alongside management implementing and monitoring the management system.

INTERNAL AUDITS / AUDITOR TRAINING - I can either train your audit team on the new requirements or I can conduct a full system internal audit of your operation.

CERTIFICATION - Assist your organization in preparing for the initial certification audit and be present if needed

AFTER CERTIFICATION - For most organizations this is the beginning and not the end of the journey toward building excellence in management systems

TRAINING

On-site training in many of the areas required for a robust Quality Management System

OTHER REQUIRED PROGRAMS

I can also assist in establishing and improving programs that are required by all quality management systems: Calibration, Training Records, Document Control, Root Cause Analysis and Statistical Process Control.

For Questions about any of the above services, please call Mark Bradley at 812-305-3867.

MAKE YOUR MOVE!

Happy 2020!! ASQ and I would like to thank each of you, our valued members, for making 2019 a great year and looking forward to the same and even better 2020. ASQ 0915 appreciates you for being a member, attending meetings and serving in leadership roles. I know this can be very difficult with work and home activities.

As we begin the New Year of 2020, many of you may have set some career goals of “making your move”. It may have been a big move of finding a new company to be a part of, climbing another wrung of your existing corporate ladder, gaining new knowledge and skills, maybe just refreshing some of the skills that you may not use all the time or looking at one of ASQ’s certifications. Let ASQ 0915 be a source of knowledge to help you “make you move”. Just a few ways that your ASQ 0915 may help:

- ✓ Attend a meeting presentation- always good information from your presenters
- ✓ Attend a company tour-these are great ways to see and benchmark
- ✓ Attend one of your Lunchtime Webinars- these are excellent quick bits of knowledge
- ✓ Other – what would you like to see?

If you have some ideas on how we can make your ASQ 0915 better and to help you “make your move”, please let me or your Senior Leadership Committee (the ones in the blue SLC shirts) know. I look forward to seeing all our members in the upcoming year! With kind regards I am.
