

## CONSTRUCTION

Here at our company we provide personalized, client-focused service and strategic business advice to general contractors, construction managers, and subcontractors in the New York Metro area, including NYC, Long Island and New Jersey. We understand the industry and its issues and are well-equipped to guide our clients towards maximizing their business. The construction industry faces unique challenges and, unlike many other industries, construction has a specialized set of accounting rules and tax regulations.

Our team keeps abreast of cutting-edge financial trends and issues in the commercial construction industry and uses this knowledge to develop financial and tax strategies regarding commercial construction company consulting.

At Mastakouris & Company CPA's P.C we have experience assisting construction professionals with a wide variety of accounting and business consulting services as below:

- Accounting & Business Services
- Bookkeeping & Bill Paying
- Cash Flow Monitoring
- Financial Budgeting & Projections
- Financial Statements Preparation
- IRS Examination Assistance
- 1031 (Like-kind) Exchanges
- Prevailing Wage Analysis
- Sales Tax and Payroll Tax Return Preparation
- Tax Compliance and Planning
- Reviews and Compilations of Financial Statements
- Income Tax Planning & Projections
- Research and Development (R&D) Tax Credit
