Instructor:

Cameron J. Novak, P.E.

Electrical/ Fire Research Engineer
ATF Fire Research Laboratory

Mr. Novak is an engineer with the ATF's Fire Research Laboratory and a member of the ATF's National Response Team. He is a licensed electrical and fire protection engineer and an IAAI Certified Fire Investigator. He holds a Bachelor's of Science degree in Electrical Engineering from North Dakota State University and a Master's of Science degree in Fire Protection Engineering from the University of Maryland. He is also a contributor to Fire Investigator: Principles and Practice to NFPA 921 & 1033

*Over the course of 16 hours, this class will cover topics such as failure analysis, scene processing, arc mapping, arc melting identification, and appliance fires.
