

“When I joined La V, I joined simply for the fact that it raised money for a great cause, Valley Children's Hospital. However, in early 2015, my niece underwent a lobectomy at Valley Children's Hospital, just six days prior to her first birthday. During her six day stay at the hospital, I visited almost daily. I interacted with the staff and found that they provided a level of care like no other hospital I had ever experienced. I was always proud to be a part of La V, but now I have a greater appreciation for the cause we all represent, Valley Children's Hospital.” -Dallas
