

ISM

The Infinity Solutions ISM Pressure Seal System is an integrated folder/sealer with a processing throughput of up to 2,000 forms per hour. The ISM's innovative design offers an affordable desktop solution to automate any organization's short run pressure seal applications.

By leveraging Infinity Solutions' pressure seal technology, pressure seal forms are sealed as they are folded reducing the costly task of manually folding and stuffing of envelopes. The Infinity Solutions ISM is an out of the box solution providing for a quick setup and quiet operation, and it offers user friendly controls which return the simplicity to mail processing.

The ISM incorporates bottom feed technology for continuous throughput increasing your organization productivity, while reducing operational costs. This remarkable unit offers five standard fold patterns (Z, EZ, C, EC, and V), custom folds, and forms up to 14" in length.

- Quiet and low maintenance
- Simple operator controls
- Handles all popular fold styles :V, C, Z, and EZ Pre-marked for easy set-up
- Automatic bottom feed friction for continuous processing
- Folds up to 2,000 documents per hour
- Completely seals across document, no "pressure zones"
- 1 year on all parts
- National on-site service options available
- Manufactured in U.S.A.
