Kindness Column

Coins4Cure was started by The Alpharetta Children's Dentistry & Orthodontics in order to raise money for childhood cancer research and treatment. Each year, the participants vary among schools, businesses, and other fundraising organizations. In 2015, Coins4Cure raised over \$85,000! Held every September during Childhood Awareness Month, the coin drive teaches children the importance of helping others, giving back, and community outreach. The value of giving back does not have to be taught to one star at The Speech Path. Cam willfully and independently donated coins in the Coins4Cure jar held at our office! His heart of gold is even more precious to witness than a beautiful pass into the end zone by our favorite football team.

Go Cam!!
