

Hollywood Revue

Imagine watching you and your guests live on the giant video screens as you dance the night away.

Watch vintage videos of all your favorite stars! Give your special award winners little Oscars as the flash bulbs pop and the star "look alike's" give out their autographs. As your guests enter the ballroom, the groupies, paparazzi, and autograph seekers are held back by wooden police barricades.

The guy on the video camera is telling you to wave at the camera as you realize that all of the guests at the party are seeing YOU on that red carpet on those giant screens! Watch out for that gigantic Oscar! Intelligent lighting, clique lights, and follow spots are a must for this revue...
