

Having peace of mind when we drop (our daughter) off and knowing she is well taken care of while we are at work has been such a blessing. The love and care she receives at Tottenberry's is something I am so very thankful for. We appreciate all you do to foster an environment that is "home away from home" for our sweet girl.

On the first day we brought (our son), I was so worried. But, now I couldn't have imagined more loving and caring people to care for him in our place.

You & your staff have been wonderful to my sweet (son). I am confident that he is ready for Kindergarten after being with y'all this last year.

We are so happy to have (our son) be a part of the Tottenberry's family. We have noticed the positive impact you & your staff are making in the children's lives.

You do not just watch (our son) while we work. You have assisted us in nurturing our baby in helping him grow socially and academically. You have been an amazing support system for us, providing advice and assistance when needed. You each hold a special place in our hearts.

Our family came to Tottenberry's last year at a very tough time in our lives. I truly believe God led us to your school. You all made the transition back to work a little bit easier for me knowing (my children) were at your school. We are blessed!

"Small classes, friendly teachers, extra-curriculars are wonderful! Love the Spanish, Bible, Art programs. Wonderful school! Would highly recommend!"

"I feel like my child is always safe and loved."

"----- has been a different little girl since starting at Tottenberry's. It's crazy the difference one week can make but we have seen her manners return to what we were used to. She is so much happier. She is happy to come to school. She loves her friends and talks about how nice her teachers are and how they are not angry. She is doing really well and I'm very thankful for the caring staff that has made her transition there go so smoothly. The other day when I picked her up, she actually didn't want to go home."

"We love Tottenberry's. Everybody knows my daughters and visibly care for them. I love the size of the school not too big and not too small. Bible study is great! Curriculum is wonderful ... We tried to leave to be closer to home but we missed it so much we had to come back."
